THE FORTS IN RUINS.

Santiago Defenses Battered Down by Sampson's Big Guns.

THE SPANISH LOSSES REPORTED SEVERE.

[Copyrighted by Associated Press.]

CAPE HAYTIEN, Hayti, June 7.—9:05 A. M.—The bombardment of the forts of Santiago de Cuba, it appears, from information obtained here, lasted from 8 a. m. until 11, Monday, inflicting immense damage on the fortifications, which were riddled and shattered by the American shells.

It is further reported here that the Cuban forces yesterday attacked Santiago de Cuba by land, during the American bombardment, inflicting heavy losses on the garrison.

A landing of American troops is reported to have taken place yesterday near Daiquiri, some distance east of Aguadores, and near the railroad connecting with Santiago. Later there was fighting with a Spanish force on land, in which the Americans were victorious.

DETAILS OF THE BOMBARDMENT.

(Copyright 1898, by the Associated Press.)

CAPE HAYTIEN, Hayti, June 7.—9:05 A. M.—The fighting before and in the vicinity of Santiago de Cuba continued the greater part of yesterday, from 7:45 a. m. until nearly 11 o'clock.

Ten of the American warships maintained a steady and carefully directed fire against El Morro Castle and the batteries at Punta Gorda, Socapa and Cinecoreales in addition to bombarding the Spanish fleet in the harbor.

The percentage of effective projectiles was very large.

It appears from the best information obtainable at this place, the cable station connecting with Santiago de Cuba, that immense damage was inflicted on the enemy. The Spaniards admit that the bombardment from the American fleet was most destructive.

About sixteen hundred projectiles are said to have been fired by the American warships, and it seems that the responsive fire from the Spanish forts and ships was scarcely felt at all by the Americans.

The fortifications near the entrance of the harbor are described as being riddled with shot and shattered by the explosion of the immense shells fired by the American battleships.

The Spanish batteries are understood to have been virtually silenced and El Morro and the fortifications at Socapa and Punta Gorda are reported to have been demolished by the three hours' uninterrupted hammering of the American fleet.

The American attack is next said to have been specially directed against Aguadores, a small coast town a little to the east of the entrance of Santiago Bay.

The idea of the American admiral, it appears, was to land troops and seige guns there, after reducing the defenses of the place, and thence make a close assault upon Santiago which, in view of the present condition of its fortifications, may be expected to yield very soon after the beginning of such an attack.

Heavy cannonading was opened upon Aguadores at about midday yesterday.

The latest advices received here from Spanish sources do not indicate the duration of the fire or whether American troops and siege guns were actually landed at Aguadores, but, from the information obtainable, it cannot be doubted that the net results of Monday's fighting was extremely disastrous to the Spanish defences.

It is also understood here that the Cuban troops maintained throughout the greater part of yesterday an attack by land on Santiago and the Spanish reports say the garrison lost heavily in killed and wounded.

The military commander of Santiago de Cuba acknowledges the following casualties among the land forces:

Colonel Ordonez, Captain Sanchez, Lieutenant Yrizar, of the artillery, and Perez and Aderia, both Spanish officers, whose rank is not mentioned.

These officers were killed. The Spaniards also admit the loss of twenty-one infantry soldiers, severely wounded, and say one soldier was killed.

But it is believed the losses of the Spaniards were much more heavy.

In the naval force the Spaniards say that the officer who was second in command of the partly dismantled Spanish cruiser Reina Mercedes and five sailors and an ensign were killed.

The Spanish sailors wounded, it is asserted, number sixteen men.

The loss on the American side, the Santiago report says, is not known. The Spaniards acknowledge that a great deal of damage was inflicted on the Spanish cruiser Reina Mercedes and they say Morro Castle shows great, gaping breaches in its walls.

Later in the day, it appears, a landing of American troops was effected near Daiquiri, some distance east of Aguadores, and near the railroad station connecting with Santiago. Later an engagement took place between the American force and a column of Spanish troops, which had been sent against the lauding party.

The accounts of the battle obtainable here, being from Spanish sources, do not set forth the result, and therefore it is to be inferred that the Americans were victorious, and that is the belief which prevails here.

It is said that only 500 American troops were landed at Daiquiri, or Aguadores, the two places being seemingly confused in the reports received here. It seems to be admitted that the fire of the American soldiers was so effective that the Spaniards were compelled to flee from the fortifications they were defending.

WILL SOON REPORT.

War Revenue Conferees Making Fast Progress.

Labors May be Finished to Report Tomorrow.

Most of Senate Amendments Will be Retained.

Seignorage Presents Greatest Obstacle to Agreement—Substitute Silver Provision Talked Of.

WASHINGTON, June 7.—After sitting until past midnight last night the conferees of the two houses of congress on the war revenue bill resumed their sitting promptly at 10 o'clock today.

The impression is growing that the committee is determined to conclude its work promptly, and that the report will be paesented before the close of the present week.

When the conference adjourned at noon; Senator Allison expressed the opinion that it would be able to report to the senate and house by tomorrow. He said that excellent progress was being made, but that it was impossible for the present to give details of the proceedings.

The house members are manifesting a disposition to accept the minor senate amendments without cavil, and the indications are now that at least 90 per cent of the senate amendments will be retained without serious dispute.

The more important amendments are naturally the ones upon which there is most controversy, and so far the seignorage provision has proved to be the most difficult problem with which the committee has had to deal.

The republican members of the conference are naturally opposed to any provision for coining the silver in the treasury, but they realize that there will be great difficulty in getting the senate to accept a report that does not make some provision of this character, and consequently the republican senators are urging the house members to agree to something in this line.

The probabilities now are that a substitute silver provision will be reported.

WHITE HOUSE VISITORS.

WASHINGTON, June 7.—There was an unusually small number of callers at the white house today, even sightseers being scarce.

The president saw a number of senators and representatives, however, mostly on war appointment matters.

Senator Frye, of Maine, had a short conference and Representatives Speaky, of Connecticut; Brownlow, of Tennessee; Weymouth, of Massachusetts, and Wadsworth, of New York, also had brief interviews.

THE BILL IS SIGNED.

WASHINGTON, June 7.—The bill for the removal of all political disabilities arising from the civil war is now a law, President McKinley having formally approved it.

Representative Jenkins, of Wisconsin, is its author. The law declares that the "disabilities imposed by section 3, 14th amendment of the constitution heretofore incurred are hereby removed."

MARIA TERESA SUNK.

First-Class Spanish Cruiser Reported Destroyed at Santiago.

WENT DOWN UNDER FIRE OF AMERICAN GUNS

(Copyright, 1898, by the Associated Press.)

MARIA TERESA REPORTED SUNK.

CAPE HAYTIEN, Hayti, June 7.—9:05 A. M.—It is reported here that the first-class armored Spanish cruiser, Maria Teresa, was sunk yesterday by the fire of the American fleet.

ANOTHER STORY OF THE BOMBARDMENT.

NEW YORK, June 7.—A special from Cape Haytien, describing the bombardment of Santiago de Cuba on Monday, says that the forts about the harbor are now a mass of ruins.

The Morro is a shapeless pile of ruined masonry and dismantled guns and the Estrella battery is utterly ruined. This result, the dispatch says, was the work of ten American ironclads, which passed back and forth from Port Cabrera on the west to Port Aguadores on the east of the harbor entrance, discharging their heavy guns as they steamed along, so that scarcely a yard of the coast escaped the deadly cannonading.

At Port Aguadores the fort recently constructed by Colonel Ordonez, the famous artillery expert, was blown to dust and Colonel Ordonez himself was badly wounded by the flying splinters and debris. Captain Sanchez and Lieutenant Yrizar, artillery officers, were also wounded.

Two infantry lieutenants Garcia and Perez, and twenty-one privates are reported fatally wounded. Later in the day the American ships moved closer toward the mouth of the harbor where the old cruiser Reina Mercedes had been discerned attempting to place explosives about the hull of the Merrimac to blow her to pieces and clear the channel.

A thirteen inch shell from the Oregon landed squarely abaft her pilot house and tore all her upper works to shreds.

Her "second commodore," five of her sailors, and a marine were killed. A second lieutenant of the Reina Mercedes and sixteen of her seaman were very seriously wounded.

A perfect shower of shell and shot fell upon and around the old cruiser and she was so badly damaged that her crew, by order of Admiral Cervera, abandoned here and sought the shore for safety.

About noon, according to the Cape Haytien dispatch, a landing party of American marines near Daiquiri, was attacked by Spanish infantry and a squad of cavalry.

The insurgents were posted in the neighborhood, and with the aid the marines successfully took up a position holding it and later making it a base from which they operated. The Spanish force was defeated with heavy loss and driven back toward Santiago, leaving their wounded behind them.

The Americans are now entrenched near Deiquiri and are landing heavy guns, preparatory to movthem toword Santiago and laying siege to the city.

There is a panic in Santiago. The residents who can leave are fleeing to the country, joining the insurgents or doing anything to get away from the certain destruction that now awaits Cervera's fleet and the forces of Pando and Linares.

COMMANDER STURDY DIES ABOARD SHIP.

KEY WEST, June 7.—8:20 A. M.—The United States collier Pompey, formerly the British steamer Harlech, arrived here today from Norfolk, Va., with her commander, Lieut. Com. E. W. Sturdy, dead on board, and Lieut. K. C. Norton in charge of the ship. Commander Sturdy was not feeling well when the Pompey sailed on Friday evening. He was taken sick off Cape Henry, soon afterwards became unconscious and died yesterdey.

There was no physician on board. He was a native of Maine, fifty-one years of age, and has been in the service thirty-six years. The family of the deceased live at Annapolis.

The interment of the remains of Lieutenant Commander Sturdy will take place here today with naval honors.

A "SPANISH VICTORY" REPORTED BY BLANCO.

(Copyright, 1898, by the Associated Press.)

HAVANA, June 6.—10 P. M.—(Delayed in transmission.) — Details from Spanish sources received here today of the bombardment this (Monday) morning of the forts of Santiago de Cuba by the American fleet, say the warships of the United States fired fifteen hundred projectiles of all kinds. This fire, the Spaniards add, was answered by Morro Castle and the batteries at Socapa and Punta Gorda.

At noon, it is added, another bombardment began against Aguadores, east of Santiago de Cuba, the firing lasting one hour.

Both attacks, the Spaniards assert, were repulsed. Morro Castle is admitted to have been damaged as was the "exterior headquarters built during the time of peace at Cayo Smith," and, in addition the Spanish cruiser Reina Mercedes is admitted to have been "slightly damaged."

The Spanish commander at Santiago reports that the American fire did not dismount one piece of artillery, and he says that nine of the American vessels "disappeared from sight before dark."

The Spanish army losses, according to the official reports, are one soldier killed and one chief, four officers and twenty-one soldiers wounded.

The Spanish navy losses are reported to be one chief and five sailors killed and one officer and twelve sailors wounded.

Finally the Spanish version of the affair says "the American losses are supposed to be considerable."

Captain-General Blanco has congratulated General Linares, the Spanish military commander at Santiago de Cuba, and those who took part in the fighting, saying he will call the attention of the Spanish government to the "heroism exhibited by all the Spanish forces in such an unequal combat."

AUGUST HYLLESTED.

The Danish Musician, Gives a Piano Recital

Under the Auspices of the Westminster Seminary.

The New Kimball Hall Crowded With Their Invited Guests Last Night.

The music loving people who were fortunate in receiving invitations to the graduating exercises of the Westminster seminary had the opportunity of listening to one of the greatest piano virtuosos of the age last evening at Kimball hall.

The artist was the celebrated Danish pianist, August Hyllested, of Chicago, who is among the best of the world's great piano players. The program was such as is seldom given outside the great musical centers and amply proved Mr. Hyllested's musical versatility.

The piano used was a Kimball Concert Grand, and under the touch of the artist held the large audience enrapt by the volume, richness and clearness of its tone.

To say that the audience was pleased with the artist, the instrument and the beautiful new hall of the W. W. Kimball company fails to express it.

The faculty of Westminster seminary are to be congratulated. The splendid success of the evening has given new emphasis to their courage and enterprize.

TO FULL STRENGTH.

Volunteer Regiments to be Recruited Anew.

Officers to Return to Place of Organization.

Each Regiment Must Have Over Thousand Men.

Troops at Chickamauga Park Being Vigorously Licked Into Condition for Campaigning.

CHICKAMAUGA National Military Park, Tenn., June 7.—The very warm weather, which has been the only drawback to the work of the park, is relieved today by a steady breeze and the men are getting through their drill work with much less trouble than usual.

Regiment and company drills, and in some regiments camp inspection, are the order of the day. The main work of the regimental commanders, outside of the regular routine, during the next few weeks will be the work of recruiting each company to its full strength of 106 men. The major of each battalion, accompanied by four men, will be sent out to do the recruiting.

Offices will be opened in the best places in all the states represented here and every effort will be made to get the work finished in a short time.

When the regiments are recruited to full strength the park army will number 75,000 men.

The First regiment, South Carolina infantry, under Colonel Thompson, arrived this afternoon. It was taken through to the park soon after arriving here.

Governor Bradley with a large party of prominent Kentuckians arrived this evening at 6 o'clock on a special train.

The party will remain in the park several days. All the light batteries of artillery at the park are now fully equipped and the infantry regiments will soon receive their equipment.

Three divisions hospitals are now complete and in operation.

These are for the second and third divisions of the first corps and the second division of the third corps.

Colonel Hartsuff, surgeon-in-chief states that he has sufficient medical supplies on hand to last some time.

The volunteers, however, he states, expect more and use more medicine than the regulars. A large consignment of surgical instruments is on route.

Major Nye, commissary of subsistence stated this morning that one-third of four and a half million rations last order had been received and that the balance was coming as fast as train loads could haul it. Captain W. K. Wright, assistant quartermaster, states that up to 6 o'clock last evening the volunteer army had been furnished by the quartermaster's department with 4,500 horses and 5,200 mules.

SILVER MILE-POST.

Mr. and Mrs. A. T. Lukens Give a Reception.

Notable Celebration of Their Twenty-fifth Wedding Anniversary—Many Guests Present.

Last evening, at their home, 236 West Berry street, Mr. and Mrs. Alfred T. Lukens celebrated their twenty-fifth wedding anniversary. The reception, which lasted from 8 until 12, was attended by a very large number of the friends of Mr. and Mrs. Lukins, and was one of the most conspicuous social events of recent months. The happy couple, who together have walked life's pathway until the silver milestone has been reached, were warmly congratulated upon the joy and prosperity that have attended their journey, and none wished them less than the doubling of the span.

The home was most tastefully adorned with flowers and festoons of smilax, the floral embellishments, though not elaborate, being managed with admirable effect. Mr. and Mrs. Lukens were assisted in receiving and directing the comfort and enjoyment of the guests by Mesdames H. H. Granger, C. B. Woodworth, F. J. Hayden and E. T. Williams. Miss Lida Woodworth was in charge of the following young misses, who assisted with the refreshments: Miss Bessie Colerick, Miss Julia Smyser, Miss Eva Rossell, Miss Carrie Hughes, Miss Carlie Olds, Miss Esther Smith, Miss Helen Reitze and Miss Jennie Campbell.

Coffee and sandwiches were served in one of the smaller rooms and punch and ices in the dining room. An orchestra of mandolin players added gayety to the occasion.

The following out-of-town guests were among those invited:

Messrs. and Mesdames A. D. Brandriff, Marion, Ill.; D. S. Alexander, Washington, D. C.; R. G. McNiece, Salt Lake City; Charles Goodwin, Chicago; H. N. Goodwin, New York; S. S. Morss, Indianapolis; Frank Blair, Chicago.

Messrs. Perry Lukens, New York; W. T. Jenison, Denver, Col.; Wm. Morris, Richmond, Va.

Mesdames Clara Chapman, New Haven, Conn.; Margie Rathrauff Evans, Salem, Va.; E. Stanford, Kenton, Ohio.

Misses Augusta Brandriff, Washington, D. C.; Jessie Stanford, Kenton, Ohio.

INVASION TO BEGIN.

General Shafter's Army is Aboard Transports and Ready to Embark.

DESTINATION OF TROOPS FLEET UNKNOWN.

CHICAGO, June 7.—A Tampa dispatch from a reliable correspondent to the Chicago Daily News, dated June 7, says the work of loading troops, horses, guns, ammunition, stores, equipment and medical supplies for the first great invasion for the Spanish West Indies is almost completed and before many hours General Shafter's corps, the Fifth, is expected to sail away. The destination is known only to a few and may not be given out until the fleet and transports, with its convoy of war vessels, is well on its way to Cuba.

MUNICIPAL AFFAIRS.

Preparing an Ordinance to Compel Destruction of Weeds.

City Attorney Shambaugh is at Work on It—Office of Water Works Inspector Abolished—Notes.

There has been much complaint because of the failure of many citizens to kill weeds growing in their yards. The authorities have finally determined to take a hand in the matter and City Attorney Shambaugh is now at work preparing an ordinance to compell the destruction of all weeds. It is probable the ordinance will permit the city authorities to cut the weeds and charge the expense to the property, and if necessary place the expense on the tax duplicate.

OFFICE ABOLISHED.

The waterworks trustees held a regular meeting last evening and transacted considerable business. Before adjournment a motion to abolish the office of waterworks inspector was adopted, Trustees Hartnett and Tegtmeyer voting for the following resolution:

"Be it resolved, That the board of waterworks trustees on and after the 16th day of June, 1898, discontinue the employment of Michael T. Singleton, or anyone in his stead, as overseer or inspector over and along the lines of said works, and that the clerk is hereby authorized to notify the said Michael T. Singleton of the action of the board."

The board appointed George Koegel engineer at the Ross street station. During the summer months it is necessary to keep the pumps at work during all hours of the day and night and the employment of an additional engineer is therefore necessary.

BOARD OF WORKS.

Fort Wayne is to have one mile more of asphalt streets. The board of works, at its meeting yesterday afternoon, adopted resolutions for pavements on Fairfield avenue from Wayne to Jefferson, on High street from Wells to St. Mary's avenue, on Cass street from Wells to Sixth street. The owners of property will be granted a hearing June 23 and bids will be received on the work July 7. A petition has also been filed with the board asking that Union street, from Main to Jefferson, be paved with asphalt.

The grading of East Creighton avenue is complete and the contractor is at work on Sattenfield street.

NOTES.

The council committee of the whole will meet tomorrow Wednesday to discuss the proposed annexation of property south of the city.

The two new LaFrance engines have arrived in the city and this afternoon are being tested at Delta lake in Lakeside.

The asphalt block for West Columbia street has arrived and has been distributed along the street for immediate use.

The council committee on rules, regulations and ordinances will meet at the city clerk's office Thursday evening.

The deceased was the daughter of Mr. and Mrs. John Madden, of this city, and the remains arrived in the city at 3:30 o'clock this morning, and were taken to the residence of Mr. Lewis Vonris, at 58 West Fifth street. The funeral will occur Wednesday afternoon and the interment will be made in Parker's cemetery. Services at the M. E. church in St. Joe township.

A HORSE THIEF.

Sheriff Melching Finds the Owner of the Sorrel Colt.

The Animal Was Stolen From H. T. Probeck, a Miami County Farmer—Hipshire Will be Prosecuted.

Just as Sheriff Melching expected Isaiah Hipshire is a horse theif and the valuable sorrel colt he tried to sell at New Haven was stolen. This morning Sheriff Melching received a telephone message from the Grant county sheriff making queries about the animal, which he said belonged to H. T. Probeck, a Miami county farmer. The farmer was in the Grant county sheriff's office this morning making queries for his missing colt, when the mail carrier called with the mail and left one of the postal cards which Sheriff Melching had sent out describing the animal found in Hipshire's possession. The description was that of Mr. Probeck's missing colt, except that a wart on the animal's nose was not mentioned. Sheriff Melching notified the Grant county officer that the colt was undoubtedly Mr. Probeck's and he will be here tonight after the animal. The Sheriff of Miami county was notified and he will be here to take Hipshire back to Miami county for trial.

The animal was in pasture and was stolen last Wednesday evening and ridden to New Haven, a distance of more than sixty miles. The saddle and bridle were undoubtedly also stolen, although not the property of Mr. Probeck. Sheriff Melching deserves credit for his work in locating the owner of the animal and bringing another horse thief to justice.

MISMATED COUPLES.

Judge Roby, who is presiding in the superior court, this morning granted Sadie Keyser a divorce from William Keyser on the grounds of failure to provide. She was given the custody of one child.

In the circuit court Judge O'Rourke granted Bethana Waltemath a divorce from William F. C. Waltemath. She was given the custody of the three minor children, and the husband was ordered to pay $10 a month for their support until the court made further orders.

NOTES.

Gussie Black makes application in the superior court for a divorce from Joseph Black, alleging desertion. J. H. Aiken penned the complaint.

Through her attorney, E. V. Emrick, Ida Johnson asks for a divorce from Ezra Johnson.

This afternoon Justices France and Tancey and Drs. C. B. Stemen and A. J. Kesler are holding an inquest of sanity on Ashland Smith.

Pennsylvania Stockholders Meet.

THE SENTINEL is in receipt of a telegraphic account of the meeting of the stockholders of the Pennsylvania company at Pittsburg today. The financial reports of the fiscal year showed the revenues to be $2,333,259.40; expenses, including interest and taxes, $1,323,438.17, leaving a profit of $1,009,821.23, an increase over last year of $771,554.51. The Fort Wayne line showed a profit of $130,955.51, against a loss in the preceding year of $513,996.38. There was a gain of $2,850 in the membership of the relief department. The same board of electors, with the exception of E. B. Morris to succeed John Davidson, deceased, was elected.

Jolly Pathfinders in "A Devil's Gold Mine."

AMERICAN war news is becoming very much Spanish.

THE country may now divide its kinship between Dewey and Hobson. For a time Dewey owned it all.

SPAIN has again protested to the powers that the United States has violated international law. Spain should hold her protests back for the more violent mistreatment that is in store for her.

FROM Washington comes word that as soon as Santiago is reduced and San Juan taken, peace overtures are expected from Spain. Certainly, there will be peace when Spain is licked. Get at it.

THE best the funny fellows can do with the name of the Merrimac hero is to note that his sublime daring was a clear case of "Hobson's choice." They could Dewey a little better with the Manila winner.

THE first "run" on banking institutions in London was in 1667. Many Lombard street goldsmiths and bankers had lent out the money entrusted to them, and being called upon for payment, were unable to meet the demand. A crowd of creditors and others assembled and a riot followed, in which four bankers were hanged at their own doors before order could be restored and the angry creditors persuaded that they were not being swindled.

WHEN the Zoar community in Ohio disbanded there were enough debts against the corporation to use up all the money in the treasury. This left as the sole assets of the members 7,500 acres of land, without anything to improve or work it. This contingency was not foreseen, and those who were most active in advocating dissolution now regret their action in substituting for the peace and plenty which the community enjoyed for so many years the worry and embarrassment which the Zoarites now have to face.

DURING this war with Spain the censorship of the press is recognized as a necessity, and if war news is rationally censorized there will be complaint from no quarter. But the manner in which the Washington end of the business is conducted makes a farce of the matter. At Tampa and Kew West it is impossible to telegraph news that should be suppressed, but the censor's labor is lost because in Washington correspondents of certain powerful metropolitan newspapers are able to obtain war plans, naval movements and the like as regularly as ever. Censorship should be established over the Washington bureau chiefs if there is to be any good end served by the interdiction of news.

BY THE accidental misplacement of a bit of copy THE SENTINEL in its brief resume of the personnel of the democratic county ticket Monday neglected to mention Sheriff Albert E. Melching, who was renominated by the convention Saturday. The occurrence was distressing to THE SENTINEL, for it did a seeming injustice to a popular man and as good a sheriff as Allen county has ever had. Mr. Melching has been an active, alert and vigilant officer and his administration of the affairs of the sheriff's office has been so conspicuously satisfactory that even his political opponents have been compelled to acknowledge it by refraining from criticism. His renomination came to him without effort upon his own part and was the free-will tribute of his party to the eminent merit of his official career. Sheriff Melching has inaugurated many reforms in various details of the conduct of the office which he holds, with the result that the public is better and more economically served in that capacity than has been the case for many years. He will be re-elected and it is not guessing to predict that his majority will place him among the leaders of the ticket.

NO ONE will, for no one can, discount the splendor of the daring exhibited by Lieutenant Hobson, who commanded the Merrimac on that desperate cruise up the narrow neck of Santiago bay, running the terrible gauntlet of shore batteries and defying the fields of deadly mines beneath. In accounting for his bravery Lieutenant Hobson's ancestry has been dug up and it is found that his great grandfather fought with Washington, his grandfather with Jackson and his father with Lee. He comes of fighting stock, it is said. So he does. But how about Montague, Charette, Murphy, Deignan, Phillips, Kelly and Clausen, the seven brave fellows who volunteered to go with Hobson and did go with him? Did they not come of "fighting stock," too? But who was the "stock?" No one has yet exhumed the ancestry of these men to account for their part in the Santiago feat. Somewhere in this land or in lands across the sea there are humble folk whose eyes will fill, whose voices tremble, whose bosoms thrill, when they read of Kelly and Murphy and Clausen and the others of the seven who sailed intrepidly into the mouth of that hell at Santiago, for those men have kinsfolk somewhere on the earth.

TWO THOUSAND STRONG.

Immense Excursion From Jackson, Mich. Coming to Robison Park.

Since the opening of Robison park there have been some large excursion parties here from neighboring cities and towns, but the biggest of them will sink into insignificance in comparison with the one which is to come down from Jackson, Mich., the latter part of June or early in July. Yesterday six of Jackson's leading business men, who represent the Retail Grocers' association of that city, were here to consult the park management concerning the excursion. They were escorted over the grounds by Amusement Manager Heilbroner, who told them what they could expect from the park people in the way of amusements and pointed out the very small per capita cost of a days' pleasure at that resort. The gentlemen expressed the belief that Robison park was the place they were seeking and they left for home, determined to bring the excursion party here. One of the party, in conversation with a citizen, stated that it was their aim to seek an excursion point where there were all the facilities for handling an immense crowd speedily and safely, and he believed that Robison park possessed those facilities. The Retail Grocers' association, of Jackson, bears the same relation to that city as business men's clubs and commercial clubs or boards of trade do to other cities. They have a membership of over 600, and their annual excursion is always considered the event of the season. Last year they went to Toledo in three special trains, and carried over 2,100 passengers.

Jackson is a city much on the same lines as Fort Wayne, and there is no doubt but that the visit of a large delegation from our northern neighbor would result in the establishment of more cordial relations, both in a business and social way. It is sincerely hoped that the Jacksonians will decide to come here and learn how clever a host Fort Wayne can be.

CITY OWNERSHIP

Of Electric Lighting Discussed by Dr. K. K. Wheelock.

Some Facts and Figures Intended to Show the Municipal Control Will Benefit the People.

Editor of THE SENTINEL:

There is a growing conviction in the minds of the people that the highest attainment of success in all departments of public utilities is through the control and ownership of such utilities by the people. When such utilities can be had by the people at the net cost of the product, why pay twice or three times such cost to private corporations? There can be no argument when we once admit the tenability of municipal ownership. The courts uphold the right of the city to engage in business enterprises which are of public character, and maintain the right of the people to distribute natural products for the benefit of the people, and go further and admit the manufacture of products when the object is primarily for public benefit rather than for financial gain. The storing of electricity is hardly to be regarded in the nature of manufacture. Its machinery is simple and its management is not complex. The industry does not convert raw materials into industrial products any more than our water works manufacture water. Water is simply stored and distributed under practically the same methods as are used to distribute the electric current. The product of the dynamo is not sold in competition with other products and does not figure in barter and trade. There are no complex mercantile dealings with jobbers or producers of materials which might affect the cost of the finished product. No shipping to distant points and no clerks to drum trade. The product is stored and distributed for present use and each day's product is disposed of. In fact so entirely similar to the distribution of our water supply is electricity that the two plants may most advantageously be operated together and when they are so operated the cost of the electrical output is reduced to the minimum. There can be no question but that the same factors entering into any business may be variously used and that varying results will follow. But wherever good business methods have entered into the distribution and storing of electricity the cost has been practically the same in municipal plants and private concerns. The unit cost varies but little in England and America. The local conditions must always be borne in mind in estimating the cost of the output. In private concerns often the unit cost is made high by reason of excessive salaries to figureheads and presidents, who are of no use in the actual business of the concern. Then, again, burdens are charged against cost which are incidental to municipal companies. Often attorney's fees are necessary in cases where the rights of the people have been invaded and cases come into court. Legislatures at times must be bought in the interests of private enterprises. Again the plants are bonded for the full amount of their cost, while the stock is expected to pay 6 to 8 per cent. All these elements figure in the cost of a private plant, when they would not be considered in municipal ownership. As between different cities, the cost of fuel will be a figure in the cost of the output. One city may have coal at seventy-five cents a ton laid down at its furnace doors. Another city may have coal at its docks at $1.50 per ton. Labor cost will vary in different cities and thus we will note the variations in lamp cost in cities of nearly the same size. In Indiana the lamp cost varies so greatly that local conditions of cost cannot be regarded as the true cause of such difference. For instance Terre Haute pays $63.95 per lamp under the contract system, while Fort Wayne pays $120 under the rental system.

Terre Haute is nearer the Indiana coal fields and coal is had at $1.55 per ton. The Fort Wayne plant is run in part by water power so that the power cost would be about the same. Where can be the difference in the cost? Is the difference natural or artificial? Is patriotism higher or lower in Terre Haute as compared with Fort Wayne? Indianapolis pays $85.00 per lamp on the moonlight schedule under private contract, while Kendallville pays $60.00 under municipal management. New Albany, under the rental system, with the lights running all night and every night, pays $58.40, while Muncie, operating on moonlight and dark nights, pays $54.00 under the rental system. These figures are reliable, because they are furnished by the Fort Wayne Electric corporation.

Martinsville operates a municipal plant of sixty arc lamps of 2,000 candle power all night, except moonlight nights, at a cost of $35.00 per lamp.

It seems very pertinent to inquire why these variations? And when we know why the city of Fort Wayne chooses to permit her people to be robbed of $18,000 to $20,000 per annum in the matter of street lights it would seem most healthful for all concerned if our street lighting system would step out of politics and allow the business of lighting our streets to be done on business principles. We are in need of many improvements in the city which would be of lasting benefit to the people. But as long as we have to raise $20,000 more than we should raise and hand it over as a subsidy with which a corruption fund may be established to be used in municipal elections those public improvements must wait. A foot bridge should be built across the Maumee river at the foot of Harmer street so that there may be communication with Lakeside but our board of public works would raise its hands in pious supplication to the powers, and frown down the proposition in the calendar that such extravagance could not be thought of, yet when it comes to handing the council a contract by the terms of which the people of the city are robbed of $20,000 per annum for electric lights, they feel anew the burning of the fires of patriotism in their souls, and they again consecrate their lives to their country and their God (Mammon). We need a curfew law in Fort Wayne to protect our children from the dangers of unbridled liberty on our streets. But this would mean an addition to our police force to properly carry out the provisions of the law. But we can not have such an ordinance; it would be expensive. Our children are cheap. The future of the state, based upon their virtue and morality, is of no concern, and the great I AM, the man who boasts "I can now make and unmake mayors," puts forth his fist and says: "Let there be light and there is light" at $120 per light. But we cant't have any more policemem because there is no money and we can't raise the levy. Taxpayers, if you demand municipal lights you can lower your levy 10c on the $100 and own your own plant in ten years. Why do you longer stop on your rights? Are you, too, hypnotized by this brazen image masquerading as benefactor to your city! Yours, etc,.

MUD HENS WON IT.

Captured the Initial Game With the Hoosiers in Toledo.

Hughes Was Taken Out at the End of the Fifth With the Score 6 to 4--Other Games.

The Fort Waynes played their first game of the season in Toledo yesterday and lost. Hughes commenced the game for Fort Wayne, but at the end of the fifth inning, with the score 5 to 4 against the Hoosiers, he was taken out and "Beauty" Brodie was substituted. Only one more run was scored. Ed. O'Meara played second base in place of Peck Sharp. "Kid" Keenan was in the points for Toledo and pitched his usual effective game. Score:

COULD NOT SLEEP.

Mrs. Pinkham Relieved Her of All Her Troubles.

MRS. MADGE BABCOCK, 176 Second St., Grand Rapids, Mich., had ovarian trouble with its attendant aches and pains, now she is well. Here are her own words:

"Your Vegetable Compound has made me feel like a new person. Before I began taking it I was all run down, felt tired and sleepy most of the time, had pains in my back and side, and such terrible headaches all the time, and could not sleep well nights. I also had ovarian trouble. Through the advice of a friend I began the use of Lydia E. Pinkham's Vegetable Compound, and since taking it all troubles have gone. My monthly sickness used to be so painful, but have not had the slightest pain since taking your medicine. I cannot praise your Vegetable Compound too much. My husband and friends see such a change in me. I look so much better and have some color in my face."

Mrs. Pinkham invites women who are ill to write to her at Lynn, Mass., for advice, which is freely offered.

INTERSTATE ALL RIGHT.

Anent the stories going the rounds concerning the shaky condition of the Inter-State league, the Youngstown correspondent of the Cleveland Leader sends that paper the following:

"The reports published to the effect that the Inter-State league was in a shaky condition, and that New Castle and Springfield would go out of the business, are entirely without foundation. The league is in solid condition financially, and neither New Castle nor Springfield are on the market. Since Wheeling was dropped reports have emanated from that city to the effect that it had an option on a franchise in the Inter-State league.

"If it has any option it is at a figure that Wheeling can not reach. Irving Brodie, who has been in the box for three seasons with Youngstowns, and now signed by Fort Wayne, will probably be offered steady employment as a machinist."

NOTES.

Griffin has accepted Fort Wayne's terms but wants advance money, which he will not get.

Brott, an outfielder from Waterloo, Iowa, has been signed by Manager Howard, of Mansfield.

Peck Sharp left Fort Wayne over the Wabash last evening and will report to Manager Vanderbeck in Detroit this afternoon.

Dayton News: "Lew Knau, who played short for Indianapolis last year, has joined the Daytons. He may succeed Heine. The latter has been doing good work. His great disadvantage is his arm. But he's 'warm enough' for any club in the Inter-State."

Many people burn the candle of life at both ends. Some men who never go into vicious dissipation use up their energies just as much by overwork or late hours; and nearly all women are compelled by circumstances to use up their vital powers beyond all reason: It may be in housework; or social demands; or the bearing and rearing of children: At any rate the candle of life is too rapidly consumed.

Some people need to have their natural vigor constantly reinforced in the same proportion that it is used up. They need the fortifying help of Dr. Pierce's Golden Medical Discovery. It is a powerful alterative and invigorant of the digestive functions and liver; it cleanses the blood, and makes fresh blood and healthy flesh. Nervous, debilitated women should take it in conjunction with Dr. Pierce's Favorite Prescription which is specially designed for female weakness and nervous troubles.

Mrs. Sallie Kauffman, of Virgil City, Cedar Co., Mo., writes: "I had suffered from displacement of internal organs and female weakness for one year. Had a bearing down sensation and very disagreeable feeling after my second child was born; I could be on my feet only a few minutes until he was six weeks old, then I commenced taking Dr. Pierce's Golden Medical Discovery and "Favorite Prescription." I took seven bottles in all. After taking the first bottle I felt much better. I think I am entirely cured of all my troubles. I can do all my work and am on my feet all day. I am in much better health now than I have been in four years; am fleshy and gaining strength very fast."

By writing to Dr. Pierce who is chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., careful professional advice will be obtained free of cost and specially adapted to the individual case. Dr. Pierce's great 1000-page Medical Adviser will be sent free for 21 cents; the cost of postage.

SHOP AND RAIL.

Wabash Round House Catches Fire But is Not Damaged.

The Pennsylvania Shopmen Secure a Band and Orchestra for Their Annual Picnic--Local Gossip.

Fire was discovered on the roof of the old Wabash round house at 9:20 o'clock this morning. Five minutes later the shopmen's fire department had a hose stretched and were throwing water upon the building, extinguishing the flames before any serious damage had occurred. The fire is supposed to have originated from a spark from a stove, in which one of the employes had kindled a fire to heat some bolts. No alarm was sent to the city fire department.

General and Local Gossip.

Walter Adams, machinist at the Bass works, is sick.

O. Thompson, of the east car shop, is sick and off duty.

Pittsburg Engineer James J. Hayes is sick and off duty.

Jacob Gushing, checkman at the Lake Shore warehouse, is sick and off duty.

Nickel Plate Engineer C. Bromelmeier has gone to Cleveland to spend a ten days' vacation.

Engineer J. A. Swartz and Fireman Wm. Hurlburt, of the Nickel Plate, are taking a few days' lay off.

Charles Hilker has returned to his work in the Pittsburg shops. A week ago he had the misfortune to have an arm hurt.

Fred Deahl has resumed charge of his local run on the Nickel Plate and Conductor Pierce has returned to a through frieght run.

Thomas Pritchard, machinist at the Bass works who lost a finger a short time ago, resumed his work at the shop this morning.

Brakeman Renberger, who was sick, and Brakeman M. Deatrick, who was resting, yesterday reported at the Nickel Plate for work.

T. Elliott, car repairer at the Nickel Plate, has recovered from his recent illness and is working again, after an absence of a week.

The Louisville and Nashville road will restore the wages of its employes July 1 to the standard which prevailed during the "flush" time of 1892.

John Ryan, the coppersmith at the Pittsburg shops, is off duty today attending the wedding of his aunt, mention of which is made elsewhere.

R. R. Cable was president of the Chicago and Rock Island for twenty-one years. He resigned last week to become chairman of the executive committee.

Nickel Plate Conductor John Hibinger, who had a foot crushed under a car wheel two or three months ago, has recovered from the injury and is again at work.

Mrs. F. J. Mains, wife of the Lake Erie and Western fireman, has gone to Geneva, Ind., to visit a week or two. She will be joined there in a few days by her husband.

Charles W. Johnson, of the Pittsburg shops, is entertaining Mrs. Peter Geisman and daughter, of Van Wert, Ohio. Mr. Johnson resides at 2 Brookside street.

Mr. Hare, foreman of the blacksmith department of the railway shops at Grand Rapids, was in the city today, the guest of the local Pennsylvania shop officials.

Conductor Michael O'Meara and his crew, of the Lake Erie and Western, were called to New Castle yesterday to testify in a case wherein the company is the defendant.

The Big Four shopmen at Bellefontaine, Ohio, are preparing for a flag raising, to take place June 20. A big bonquet free to all spectators, will be a part of the program.

Forty miles of steel rail, weighing ninety pounds to the yard, was distributed last week on the Pittsburg and Lake Erie, and twenty-three miles more will be distributed this week.

R. Seymour, the Nickel Plate fireman, who had two toes mashed two weeks ago by a chunk of coal falling upon them, has recovered and yesterday resumed his duties on the road.

Nickel Plate engine 62, just out of the Stony Island shops, has been assigned to through freight service on the third district. Engineer Louis Balzer and Fireman H. Hale are the crew.

After a few days' recreation, Yard Conductor C. M. Taylor, of the Lake Shore, is on duty again. George Ward, a switchman in the same yards, is now taking a short rest from his labors.

A. S. Johnston, formerly train dispatcher on the Findlay, Fort Wayne and Western, and his wife have returned from Cincinnati. They are now contemplating a visit to Peru, making the journey there on bicycles.

George U. Darker, timekeeper at the Bass works, has gone to Ohio to spend a week or two on the farm of his aunt. Mr. Darker has been in poor health for several months and he thinks the rest and change of scene will be beneficial.

Machinist Andy Dawson, of the Pittsburg shops, who left here a month ago for Washington, is supposed to have been successful in securing a position in the government navy yards. A letter dated a few days ago stated that he was expecting to be summoned to duty at any time.

The Electric corporation today sent six motors, three of them twenty horse power each, to San Bernardino, Cal.

George H. Hoover, for thirty-four years general live stock agent of the New York Central, has resigned and is succeeded by J. H. Parke, formerly joint agent of the Central Traffic association at Buffalo.

C. W. Moore, who for a few weeks was assistant clerk in the storeroom of the paint department of the Pittsburg shops, has returned to his former position in the east car shops and L. W. Cook has taken the place in the storeroom.

The Illinois Central is arranging its finances to get a good line into St. Louis. In addition to bonds previously announced, the company has applied for the listing on the New York stock exchange of $6,321,000, St. Louis division and terminal 3¼ per cent. first mortgage gold bonds.

Lloyd King, the young man who was injured by jumping from a Grand Rapids train at the Baltimore and Ohio crossing at Avilla, a few days ago, is not seriously injured. He was to have taken a position in the Indiana Machine works this morning, but was not able to do so on account of the accident.

Anton Fisher, sr., is lying ill at his home on Hoagland avenue. He is very old, being eighty-six, and the family are fearful lest he may not recover. Mr. Fisher was for many years employed in the cabinet department of the Pittsburg shops, but retired on account of old age. Anthony Fisher, the well known blacksmith in the Pittsburg shops, is a son of the sick man.

The railroads of New England are profiting by the war in one direction, the increase of all-rail transportation of coal. At present many of the cities and towns on the line of the New York, New Haven and Hartford and the New England roads are receiving their supplies by rail. Hitherto the bulk of this tonnage has been received at some coast point in barges or schooners and then transshipped to destination by rail.

Superintendent Starr, of the eastern division of the Pittsburg, Fort Wayne and Chicago road, has issued an order forbidding bicycle riding about the company's property. At Alliance the wheelmen got in the habit of riding between the tracks and one day last week one of them, a young man living in the city, was struck and killed by a train. This accident led Mr. Starr to issue the order forbidding any further riding on the tracks.

The committee on music for the shopmen's picnic at Rome City on June 18, has selected Wayne Tent band for that occasion. The committee also engaged the Jennison orchestra to furnish music at the danco hall. Other details for the event are now under way, and the coming excursion is going to be one of the best the employes ever enjoyed. A rate of 75 cents has been fixed for those who are not employes of the company, and no doubt many tickets will be sold.

Among the many expenses borne by railroad companies the ice bill figures quite prominently. For instance, on the Baltimore and Ohio it is expected it will take over 50,000 tons of ice this year to meet the requirements of the service. The greater portion is used in connection with shipment of perishable goods; the balance in the passenger train service. A great deal of this ice is put up by the company in its own ice-houses, but as the past winter has been so warm a very large proportion will have to be purchased.

Today Pittsburg engine 273, of the class X pattern, is being put through a severe test in the way of hauling a big load at a high rate of speed. She left this city with 1,616 tons, a much heavier load than is usual for engines of her class. The X has six large drive wheels. Thirty of forty of these engines were built in the Fort Wayne shops five or six years ago for service in hauling heavy passenger and freight trains over the mountains, and right well did they perform that duty. But the company now has larger engines for that purpose and the X is being used in the west, where the country is level and the grades not so great.

Winton Beck, of Markle, was struck in the eye with a piece of steel a day or two ago, while trying to repair his bicycle. He was brought to Fort Wayne and taken to St. Joe hospital, where he is being treated by Dr. K. K. Wheelock. It is believed he will lose the sight of the eye.

BARNETT THANKS

Allen County Democracy for the Honor Conferred on Him.

Dr. W. F. Schrader Received a Telegram This Morning--The Doctor Sent Home a Live Alligator.

Dr. W. F. Schrader this morning received a telegram from Dr. W. W. Barnett, which was in reply to a telegram announcing the doctor's nomination to the candidacy for coroner upon the democratic ticket. The message reads: "Greetings and thanks to the democracy of Allen county. Everybody well." Dr. Barnett is at Port Tampa, which is nine miles down the coast from the city of Tampa and is reached only by boat. This accounts for the delay in the receipt of the telegram.

Walter, the son of Dr. Barnett, this morning received by express from his father, a young alligator about eighteen inches long. The reptile is quite active, and created some commotion in the Barnett home when he was released from the box which had been his prison for several dyys. He was in a belligerent mood and not in the least particular who he tackled.

NEARLY DROWNED.

John Lerch Saved by the Quick Action of Companions,

Who Pulled Him From the St. Mary's After He Had Filled Up With Water and Gone Down.

John Lerch, aged 16, who lives at the corner of Pontiac and Force streets, had a narrow escape from drowning yesterday. He, with a number of other boys, went swimming in the St. Mary's river, near Esmond's mill. Lerch got into the water too far and sank, filling up with water. His companions dived down and got hold of him and then pulled the half-drowned boy to the bank, where they worked with him until they had brought him back to life. He was then taken to the county asylum, where he stayed until completely recovered from his almost fatal swim. Lerch is out today, but will not soon forget his narrow escape from death.

John Colchin, of Decatur, and Miss Mary May, of this city, were married at the St. Patrick's Catholic church this morning, at 9 o'clock. This evening the bride and groom will be tendered a reception at the home of Mrs. Ryan, 83 Hoagland avenue, who is a sister of the bride, and at 12 o'clock tonight Mr. and Mrs. Colchin will leave for Decatur, where they will reside.

I. L. Barkley and M. S. Willson have purchased the meat market formerly owned by Rochelle, on Broadway.

A Cure for Heartburn.

The burning sensation in the stomach, the pains and suffering which I experienced for five long years, brought on by continued constipation and biliousness, are almost indescribable. I tried every known remedy without effect. Finally I tried Ramon's Liver Pills and Tonic Pellets, following the directions carefully. After taking a few doses I began to improve. I have not used more than three boxes and feel as well as I ever felt. My restoration to perfect health I attribute solely to the use of Ramon's Liver Pills and Tonic Pellets, and I only wish I could persuade others to do so as I did and be cured—Logan M. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

THE FORTS IN RUINS.

Santiago Defenses Battered Down by Sampson's Big Guns.

THE SPANISH LOSSES REPORTED SEVERE.

[Copyrighted by Associated Press.]

CAPE HAYTIEN, Hayti, June 7.—9:05 A. M.—The bombardment of the forts of Santiago de Cuba, it appears, from information obtained here, lasted from 8 a. m. until 11, Monday, inflicting immense damage on the fortifications, which were riddled and shattered by the American shells.

It is further reported here that the Cuban forces yesterday attacked Santiago de Cuba by land, during the American bombardment, inflicting heavy losses on the garrison.

A landing of American troops is reported to have taken place yesterday near Daiquiri, some distance east of Aguadores, and near the railroad connecting with Santiago. Later there was fighting with a Spanish force on land, in which the Americans were victorious.

DETAILS OF THE BOMBARDMENT.

(Copyright 1898, by the Associated Press.)

CAPE HAYTIEN, Hayti, June 7.—9:05 A. M.—The fighting before and in the vicinity of Santiago de Cuba continued the greater part of yesterday, from 7:45 a. m. until nearly 11 o'clock.

Ten of the American warships maintained a steady and carefully directed fire against El Morro Castle and the batteries at Punta Gorda, Socapa and Cinecoreales in addition to bombarding the Spanish fleet in the harbor.

The percentage of effective projectiles was very large.

It appears from the best information obtainable at this place, the cable station connecting with Santiago de Cuba, that immense damage was inflicted on the enemy. The Spaniards admit that the bombardment from the American fleet was most destructive.

About sixteen hundred projectiles are said to have been fired by the American warships, and it seems that the responsive fire from the Spanish forts and ships was scarcely felt at all by the Americans.

The fortifications near the entrance of the harbor are described as being riddled with shot and shattered by the explosion of the immense shells fired by the American battleships.

The Spanish batteries are understood to have been virtually silenced and El Morro and the fortifications at Socapa and Punta Gorda are reported to have been demolished by the three hours' uninterrupted hammering of the American fleet.

The American attack is next said to have been specially directed against Aguadores, a small coast town a little to the east of the entrance of Santiago Bay.

The idea of the American admiral, it appears, was to land troops and seige guns there, after reducing the defenses of the place, and thence make a close assault upon Santiago which, in view of the present condition of its fortifications, may be expected to yield very soon after the beginning of such an attack.

Heavy cannonading was opened upon Aguadores at about midday yesterday.

The latest advices received here from Spanish sources do not indicate the duration of the fire or whether American troops and siege guns were actually landed at Aguadores, but, from the information obtainable, it cannot be doubted that the net results of Monday's fighting was extremely disastrous to the Spanish defences.

It is also understood here that the Cuban troops maintained throughout the greater part of yesterday an attack by land on Santiago and the Spanish reports say the garrison lost heavily in killed and wounded.

The military commander of Santiago de Cuba acknowledges the following casualties among the land forces:

Colonel Ordonez, Captain Sanchez, Lieutenant Yrizar, of the artillery, and Perez and Aderia, both Spanish officers, whose rank is not mentioned.

These officers were killed. The Spaniards also admit the loss of twenty-one infantry soldiers, severally wounded, and say one soldier was killed.

But it is believed the losses of the Spaniards were much more heavy.

In the naval force the Spaniards say that the officer who was second in command of the partly dismantled Spanish cruiser Reina Mercedes and five sailors and an ensign were killed.

The Spanish sailors wounded, it is asserted, number sixteen men.

The loss on the American side, the Santiago report says, is not known. The Spaniards acknowledge that a great deal of damage was inflicted on the Spanish cruiser Reina Mercedes and they say Morro Castle shows great, gaping breaches in its walls.

Later in the day, it appears, a landing of American troops was effected near Daiquiri, some distance east of Aguadores, and near the railroad station connecting with Santiago. Later an engagement took place between the American force and a column of Spanish troops, which had been sent against the landing party.

The accounts of the battle obtainable here, being from Spanish sources, do not set forth the result, and therefore it is to be inferred that the Americans were victorious, and that is the belief which prevails here.

It is said that only 500 American troops were landed at Daiquiri, or Aguadores, the two places being seemingly confused in the reports received here. It seems to be admitted that the fire of the American soldiers was so effective that the Spaniards were compelled to flee from the fortifications they were defending.

WILL SOON REPORT.

War Revenue Conferees Making Fast Progress.

Labors May be Finished to Report Tomorrow.

Most of Senate Amendments Will be Retained.

Seigniorage Presents Greatest Obstacle to Agreement—Substitute Silver Provision Talked Of.

WASHINGTON, June 7.—After sitting until past midnight last night the conferees of the two houses of congress on the war revenue bill resumed their sitting promptly at 10 o'clock today.

The impression is growing that the committee is determined to conclude its work promptly, and that the report will be presented before the close of the present week.

When the conference adjourned at noon, Senator Allison expressed the opinion that it would be able to report to the senate and house by tomorrow. He said that excellent progress was being made, but that it was impossible for the present to give details of the proceedings.

The house members are manifesting a disposition to accept the minor senate amendments without cavil, and the indications are now that at least 90 per cent of the senate amendments will be retained without serious dispute.

The more important amendments are naturally the ones upon which there is most controversy, and so far the seignorage provision has proved to be the most difficult problem with which the committee has had to deal.

The republican members of the conference are naturally opposed to any provision for coining the silver in the treasury, but they realize that there will be great difficulty in getting the senate to accept a report that does not make some provision of this character, and consequently the republican senators are urging the house members to agree to something in this line.

The probabilities now are that a substitute silver provision will be reported.

WHITE HOUSE VISITORS.

WASHINGTON, June 7.—There was an unusually small number of callers at the white house today, even sightseers being scarce.

The president saw a number of senators and representatives, however, mostly on war appointment matters.

Senator Frye, of Maine, had a short conference and Representatives Speely, of Connecticut; Brownlow, of Tennessee; Weymouth, of Massachusetts, and Wadsworth, of New York, also had brief interviews.

THE BILL IS SIGNED.

WASHINGTON, June 7.—The bill for the removal of all political disabilities arising from the civil war is now a law, President McKinley having formally approved it.

Representative Jenkins, of Wisconsin, is its author. The law declares that the "disabilities imposed by section 3, 14th amendment of the constitution heretofore incurred are hereby removed."

MARIA TERESA SUNK.

First-Class Spanish Cruiser Reported Destroyed at Santiago.

WENT DOWN UNDER FIRE OF AMERICAN GUNS

(Copyright, 1898, by the Associated Press.)

MARIA TERESA REPORTED SUNK.

CAPE HAYTIEN, Hayti, June 7.—9:05 A. M.—It is reported here that the first-class armored Spanish cruiser, Maria Teresa, was sunk yesterday by the fire of the American fleet.

ANOTHER STORY OF THE BOMBARDMENT.

NEW YORK, June 7.—A special from Cape Haytien, describing the bombardment of Santiago de Cuba on Monday, says that the forts about the harbor are now a mass of ruins.

The Morro is a shapeless pile of ruined masonry and dismantled guns and the Estrella battery is utterly ruined. This result, the dispatch says, was the work of ten American ironclads, which passed back and forth from Port Cabrera on the west to Port Aguadores on the east of the harbor entrance, discharging their heavy guns as they steamed along, so that scarcely a yard of the coast escaped the deadly cannonading.

At Port Aguadores the fort recently constructed by Colonel Ordenez, the famous artillery expert, was blown to dust and Colonel Ordenez himself was badly wounded by the flying splinters and debris. Captain Sanchez and Lieutenant Yrizar, artillery officers, were also wounded.

Two infantry lieutenants Garcia and Perez, and twenty-one privates are reported fatally wounded. Later in the day the American ships moved closer toward the mouth of the harbor where the old cruiser Reina Mercedes had been discerned attempting to place explosives about the hull of the Merrimac to blow her to pieces and clear the channel.

A thirteen inch shell from the Oregon landed squarely abaft her pilot house and tore all her upper works to shreds.

Her "second commodore," five of her sailors, and a marine were killed. A second lieutenant of the Reina Mercedes and sixteen of her seaman were very seriously wounded.

A perfect shower of shell and shot fell upon and around the old cruiser and she was so badly damaged that her crew, by order of Admiral Cervera, abandoned here and sought the shore for safety.

About noon, according to the Cape Haytien dispatch, a landing party of American marines near Daiquiri, was attacked by Spanish infantry and a squad of cavalry.

The insurgents were posted in the neighborhood, and with the aid the marines successfully took up a position holding it and later making it a base from which they operated. The Spanish force was defeated with heavy loss and driven back toward Santiago, leaving their wounded behind them.

The Americans are now entrenched near Daiquiri and are landing heavy guns, preparatory to movthem toword Santiago and laying siege to the city.

There is a panic in Santiago. The residents who can leave are fleeing to the country, joining the insurgents or doing anything to get away from the certain destruction that now awaits Cervera's fleet and the forces of Pando and Linares.

COMMANDER STURDY DIES ABOARD SHIP.

KEY WEST, June 7.—8:20 A. M.—The United States collier Pompey, formerly the British steamer Harlech, arrived here today from Norfolk, Va., with her commander, Lieut. Com. E W. Sturdy, dead on board, and Lieut K. C. Norton in charge of the ship. Commander Sturdy was not feeling well when the Pompey sailed on Friday evening. He was taken sick off Cape Henry, soon afterwards became unconscious and died yesterday.

There was no physician on board. He was a native of Maine, fifty-one years of age, and has been in the service thirty-six years. The family of the deceased live at Annapolis.

The interment of the remains of Lieutenant Commander Sturdy will take place here today with naval honors.

A "SPANISH VICTORY" REPORTED BY BLANCO.

(Copyright, 1898, by the Associated Press.)

HAVANA, June 6.—10 P. M.—(Delayed in transmission.)—Details from Spanish sources received here today of the bombardment this (Monday) morning of the forts of Santiago de Cuba by the American fleet, say the warships of the United States fired fifteen hundred projectiles of all kinds. This fire, the Spaniards add, was answered by Morro Castle and the batteries at Socapa and Punta Gorda.

At noon, it is added, another bombardment began against Aguadores, east of Santiago de Cuba, the firing lasting one hour.

Both attacks, the Spaniards assert, were repulsed. Morro Castle is admitted to have been damaged as was the "exterior headquarters built during the time of peace at Cayo Smith," and, in addition the Spanish cruiser Reina Mercedes is admitted to have been "slightly damaged."

The Spanish commander at Santiago reports that the American fire did not dismount one piece of artillery, and he says that nine of the American vessels "disappeared from sight before dark."

The Spanish army losses, according to the official reports, are one soldier killed and one chief, four officers and twenty-one soldiers wounded.

The Spanish navy losses are reported to be one chief and five sailors killed and one officer and twelve sailors wounded.

Finally the Spanish version of the affair says "the American losses are supposed to be considerable."

Captain-General Blanco has congratulated General Linares, the Spanish military commander at Santiago de Cuba, and those who took part in the fighting, saying he will call the attention of the Spanish government to the "heroism exhibited by all the Spanish forces in such an unequal combat."

AUGUST HYLLESTED.

The Danish Musician, Gives a Piano Recital

Under the Auspices of the Westminster Seminary.

The New Kimball Hall Crowded With Their Invited Guests Last Night.

The music loving people who were fortunate in receiving invitations to the graduating exercises of the Westminster seminary had the opportunity of listening to one of the greatest piano virtuosos of the age last evening at Kimball hall.

The artist was the celebrated Danish pianist, August Hyllested, of Chicago, who is among the best of the world's great piano players. The program was such as is seldom given outside the great musical centers and amply proved Mr. Hyllested's musical versatility.

The piano used was a Kimball Concert Grand, and under the touch of the artist held the large audience enrapt by the volume, richness and clearness of its tone.

To say that the audience was pleased with the artist, the instrument and the beautiful new hall of the W. W. Kimball company fails to express it.

The faculty of Westminster seminary are to be congratulated. The splendid success of the evening has given new emphasis to their courage and enterprise.

TO FULL STRENGTH.

Volunteer Regiments to be Recruited Anew.

Officers to Return to Place of Organization.

Each Regiment Must Have Over Thousand Men.

Troops at Chickamauga Park Being Vigorously Licked Into Condition for Campaigning.

CHICKAMAUGA National Military Park, Tenn., June 7.—The very warm weather, which has been the only drawback to the work of the park, is relieved today by a steady breeze and the men are getting through their drill work with much less trouble than usual.

Regiment and company drills, and in some regiments camp inspection, are the order of the day. The main work of the regimental commanders, outside of the regular routine, during the next few weeks will be the work of recruiting each company to its full strength of 106 men. The major of each battalion, accompanied by four men, will be sent out to do the recruiting.

Offices will be opened in the best places in all the states represented here and every effort will be made to get the work finished in a short time.

When the regiments are recruited to full strength the park army will number 75,000 men.

The First regiment, South Carolina infantry, under Colonel Thompson, arrived this afternoon. It was taken through to the park soon after arriving here.

Governor Bradley with a large party of prominent Kentuckians arrived this evening at 6 o'clock on a special train.

The party will remain in the park several days. All the light batteries of artillery at the park are now fully equipped and the infantry regiments will soon receive their equipment.

Three divisions hospitals are now complete and in operation.

These are for the second and third divisions of the first corps and the second division of the third corps.

Colonel Hartsuff, surgeon-in-chief states that he has sufficient medical supplies on hand to last some time.

The volunteers, however, he states, expect more and use more medicine than the regulars. A large consignment of surgical instruments is en route.

Major Nye, commissary of subsistence stated this morning that one-third of four and a half million rations last order had been received and that the balance was coming as fast as train loads could haul it. Captain W. K Wright, assistant quartermaster, states that up to 6 o'clock last evening the volunteer army had been furnished by the quartermaster's department with 4,500 horses and 5,200 mules.

SILVER MILE-POST.

Mr. and Mrs. A. T. Lukens Give a Reception.

Notable Celebration of Their Twenty-fifth Wedding Anniversary—Many Guests Present.

Last evening, at their home, 236 West Berry street, Mr. and Mrs. Alfred T. Lukens celebrated their twenty-fifth wedding anniversary. The reception, which lasted from 8 until 12, was attended by a very large number of the friends of Mr. and Mrs. Lukins, and was one of the most conspicuous social events of recent months. The happy couple, who together have walked life's pathway until the silver milestone has been reached, were warmly congratulated upon the joy and prosperity that have attended their journey, and none wished them less than the doubling of the span.

The home was most tastefully adorned with flowers and festoons of smilax, the floral embellishments, though not elaborate, being managed with admirable effect. Mr. and Mrs. Lukens were assisted in receiving and directing the comfort and enjoyment of the guests by Mesdames H. H. Granger, C. B Woodworth, F. J Hayden and E. T. Williams. Miss Lida Woodworth was in charge of the following young misses, who assisted with the refreshments: Miss Bessie Coberick, Miss Julia Smyser, Miss Eva Rossell, Miss Carrie Hughes, Miss Carlie Olds, Miss Esther Smith, Miss Helen Reitze and Miss Jennie Campbell.

Coffee and sandwiches were served in one of the smaller rooms and punch and ices in the dining room. An orchestra of mandolin players added gayety to the occasion.

The following out-of-town guests were among those invited:

Messrs and Mesdames A. D. Braudriff, Marion, Ill.; D. S. Alexander, Washington, D. C., R. G. McNiece, Salt Lake City; Charles Goodwin, Chicago; H. N. Goodwin, New York, S. S. Morse, Indianapolis; Frank Burr, Chicago.

Messrs. Perry Lukens, New York; W. T. Jennon, Denver, Col.; Wm. Morris, Richmond, Va.

Mesdames Clare Chapman, New Haven, Conn.; Margie Rathbauff Evans, Salem, Va.; E Stanford, Kenton, Ohio.

Misses Augusta Braudriff, Washington, D. C.; Jessie Stanford, Kenton, Ohio.

INVASION TO BEGIN.

General Shafter's Army is Aboard Transports and Ready to Embark.

DESTINATION OF TROOPS FLEET UNKNOWN.

CHICAGO, June 7.—A Tampa dispatch from a reliable correspondent to the Chicago Daily News, dated June 7, says the work of loading troops, horses, guns, ammunition, stores, equipment and medical supplies for the first great invasion for the Spanish West Indies is almost completed and before many hours General Shafter's corps, the Fifth, is expected to sail away. The destination is known only to a few and may not be given out until the fleet and transports, with its convoy of war vessels, is well on its way to Cuba.

MUNICIPAL AFFAIRS.

Preparing an Ordinance to Compel Destruction of Weeds.

City Attorney Shambaugh is at Work on It—Office of Water Works Inspector Abolished—Notes.

There has been much complaint because of the failure of many citizens to kill weeds growing in their yards. The authorities have finally determined to take a hand in the matter and City Attorney Shambaugh is now at work preparing an ordinance to compell the destruction of all weeds. It is probable the ordinance will permit the city authorities to cut the weeds and charge the expense to the property, and if necessary place the expense on the tax duplicate.

OFFICE ABOLISHED.

The waterworks trustees held a regular meeting last evening and transacted considerable business. Before adjournment a motion to abolish the office of waterworks inspector was adopted, Trustees Hartnett and Tegtmeyer voting for the following resolution:

"Be it resolved, That the board of waterworks trustees on and after the 16th day of June, 1898, discontinue the employment of Michael T. Singleton, or anyone in his stead, as overseer or inspector over and along the lines of said works, and that the clerk is hereby authorized to notify the said Michael T. Singleton of the action of the board."

The board appointed George Koegel engineer at the Ross street station. During the summer months it is necessary to keep the pumps at work during all hours of the day and night and the employment of an additional engineer is therefore necessary.

BOARD OF WORKS.

Fort Wayne is to have one mile more of asphalt streets. The board of works, at its meeting yesterday afternoon, adoped resolutions for pavements on Fairfield avenue from Wayne to Jefferson, on High street from Wells to St. Mary's avenue, on Cass street from Wells to Sixth street. The owners of property will be granted a hearing June 23 and bids will be received on the work July 7. A petition has also been filed with the board asking that Union street, from Main to Jefferson, be paved with asphalt.

The grading of East Creighton avenue is complete and the contractor is at work on Suttenfield street.

NOTES.

The council committee of the whole will meet tomorrow (Wednesday) to discuss the proposed annexation of property south of the city.

The two new LaFrance engines have arrived in the city and this afternoon are being tested at Delta lake in Lakeside.

The asphalt block for West Columbia street has arrived and has been distributed along the street for immediate use.

The council committee on rules, regulations and ordinances will meet at the city clerk's office Thursday evening.

The deceased was the daughter of Mr. and Mrs. John Madden, of this city, and the remains arrived in the city at 3:30 o'clock this morning, and were taken to the residence of Mr. Lewis Vouris, at 58 West Fifth street. The funeral will occur Wednesday afternoon and the interment will be made in Parker's cemetery. Services at the M. E. church in St. Joe township.

A HORSE THIEF.

Sheriff Melching Finds the Owner of the Sorrel Colt.

The Animal Was Stolen From H. T. Probeck, a Miami County Farmer—Hipshire Will be Prosecuted.

Just as Sheriff Melching expected Isaiah Hipshire is a horse theif and the valuable sorrel colt he tried to sell at New Haven was stolen. This morning Sheriff Melching received a telephone message from the Grant county sheriff making queries about the animal, which he said belonged to H. T. Probeck, a Miami county farmer. The farmer was in the Grant county sheriff's office this morning making queries for his missing colt, when the mail carrier called with the mail and left one of the postal cards which Sheriff Melching had sent out describing the animal found in Hipshire's possession. The description was that of Mr. Probeck's missing colt, except that a wart on the animal's nose was not mentioned. Sheriff Melching notified the Grant county officer that the colt was undoubtedly Mr. Probeck's and he will be here tonight after the animal. The sheriff of Miami county was notified and he will be here to take Hipshire back to Miami county for trial.

The animal was in pasture and was stolen last Wednesday evening and ridden to New Haven, a distance of more than sixty miles. The saddle and bridle were undoubtedly also stolen, although not the property of Mr. Probeck. Sheriff Melching deserves credit for his work in locating the owner of the animal and bringing another horse thief to justice.

MISMATED COUPLES.

Judge Roby, who is presiding in the superior court, this morning granted Sadie Keyser a divorce from William Keyser on the grounds of failure to provide. She was given the custody of one child.

In the circuit court Judge O'Rourke granted Bethana Waltemath a divorce from William F. C. Waltemath. She was given the custody of the three minor children, and the husband was ordered to pay $10 a month for their support until the court made further orders.

NOTES.

Gussie Black makes application in the superior court for a divorce from Joseph Black, alleging desertion. J. H. Aiken penned the complaint.

Through her attorney, E. V. Emrick, Ida Johnson asks for a divorce from Ezra Johnson.

PENNSYLVANIA STOCKHOLDERS MEET.

THE SENTINEL is in receipt of a telegraphic account of the meeting of the stockholders of the Pennsylvania company at Pittsburg today. The financial reports of the fiscal year showed the revenues to be $2,253,279 10; expenses, including interest and taxes, $1,323,138 17, leaving a profit of $1,009,921 23, an increase over last year of $771,[illegible] 51. The Fort Wayne line shows a profit of $130,956 51, against a loss in the preceding year of $513,996 58. There was a gain of $2,850 in the membership of the relief department. The same board of electors, with the exception of E. B. Morris to succeed John Davidson, deceased, was elected.

THE FORTS IN RUINS.

Santiago Defenses Battered Down by Sampson's Big Guns.

THE SPANISH LOSSES REPORTED SEVERE.

(Copyrighted by Associated Press.)

CAPE HAYTIEN, Hayti, June 7.—9:05 A. M.—The bombardment of the forts of Santiago de Cuba, it appears, from information obtained here, lasted from 8 a. m. until 11, Monday, inflicting immense damage on the fortifications, which were riddled and shattered by the American shells.

It is further reported here that the Cuban forces yesterday attacked Santiago de Cuba by land, during the American bombardment, inflicting heavy losses on the garrison.

A landing of American troops is reported to have taken place yesterday near Daiquiri, some distance east of Aguadores, and near the railroad connecting with Santiago. Later there was fighting with a Spanish force on land, in which the Americans were victorious.

DETAILS OF THE BOMBARDMENT.

(Copyrighted 1898, by the Associated Press.)

CAPE HAYTIEN, Hayti, June 7.—9:05 A. M.—The fighting before and in the vicinity of Santiago de Cuba continued the greater part of yesterday, from 7:45 a. m. until nearly 11 o'clock.

Ten of the American warships maintained a steady and carefully directed fire against El Morro Castle and the batteries at Punta Gorda, Socapa and Cheeconales in addition to bombarding the Spanish fleet in the harbor.

The percentage of effective projectiles was very large.

It appears from the best information obtainable at this place, the cable station connecting with Santiago de Cuba, that immense damage was inflicted on the enemy. The Spaniards admit that the bombardment from the American fleet was most destructive.

About sixteen hundred projectiles are said to have been fired by the American warships, and it seems that the responsive fire from the Spanish forts and ships was scarcely felt at all by the Americans.

The fortifications near the entrance of the harbor are described as being riddled with shot and shattered by the explosion of the immense shells fired by the American battleships.

The Spanish batteries are understood to have been virtually silenced and El Morro and the fortifications at Socapa and Punta Gorda are reported to have been demolished by the three hours' uninterrupted hammering of the American fleet.

The American attack is next said to have been specially directed against Aguadores, a small coast town a little to the east of the entrance of Santiago Bay.

The idea of the American admiral, it appears, was to land troops and seize guns there, after reducing the defenses of the place, and thence make a close assault upon Santiago which, in view of the present condition of its fortifications, may be expected to yield very soon after the beginning of such an attack.

Heavy cannonading was opened upon Aguadores at about midday yesterday.

The latest advices received here from Spanish sources do not indicate the duration of the fire or whether American troops and siege guns were actually landed at Aguadores, but, from the information obtainable, it cannot be doubted that the net results of Monday's fighting was extremely disastrous to the Spanish defences.

It is also understood here that the Cuban troops maintained throughout the greater part of yesterday an attack by land on Santiago and the Spanish reports say the garrison lost heavily in killed and wounded.

The military commander of Santiago de Cuba acknowledges the following casualties among the land forces:

Colonel Ordonez, Captain Sanchez, Lieutenant Yrizar, of the artillery, and Perez and Adoria, both Spanish officers, whose rank is not mentioned.

Those officers were killed. The Spaniards also admit the loss of twenty-one infantry soldiers, severely wounded, and say one soldier was killed.

But it is believed the losses of the Spaniards were much more heavy.

In the naval force the Spaniards say that the officer who was second in command of the partly dismantled Spanish cruiser Reina Mercedes and five sailors and an ensign were killed.

The Spanish sailors wounded, it is asserted, number sixteen men.

The loss on the American side, the Santiago report says, is not known. The Spaniards acknowledge that a great deal of damage was inflicted on the Spanish cruiser Reina Mercedes and they say Morro Castle shows great, gaping breaches in its walls.

Later in the day, it appears, a landing of American troops was effected near Daiquiri, some distance east of Aguadores, and near the railroad station connecting with Santiago. Later an engagement took place between the American force and a column of Spanish troops, which had been sent against the landing party.

The accounts of the battle obtainable here, being from Spanish sources, do not set forth the result, and therefore it is to be inferred that the Americans were victorious, and that is the belief which prevails here.

It is said that only 600 American troops were landed at Daiquiri, or Aguadores, the two places being seemingly confused in the reports received here. It seems to be admitted that the fire of the American soldiers was so effective that the Spaniards were compelled to flee from the fortifications they were defending.

WILL SOON REPORT.

War Revenue Conferees Making Fast Progress.

Leibers May be Published to Report Tomorrow.

Most of Senate Amendments Will be Retained.

Salzburger Presents Greatest Obstacle to Agreement—Substitute Silver Provision Talked Of.

WASHINGTON, June 7.—After sitting until past midnight last night the conferees of the two houses of congress on the war revenue bill resumed their sitting promptly at 10 o'clock today.

The impression is growing that the committee is determined to conclude its work promptly, and that the report will be presented before the close of the present week.

When the conference adjourned at noon, Senator Allison expressed the opinion that it would be able to report to the senate and house by tomorrow. He said that excellent progress was being made, but that it was impossible for the present to give details of the proceedings.

The house members are manifesting a disposition to accept the minor senate amendments without cavil, and the indications are now that at least 90 per cent of the senate amendments will be retained without serious dispute.

The more important amendments are naturally the ones upon which there is most controversy, and so far the salzburger provision has proved to be the most difficult problem with which the committee has had to deal.

The republican members of the conference are naturally opposed to any provision for coining the silver in the treasury, but they realize that there will be great difficulty in getting the senate to accept a report that does not make some provision of this character, and consequently the republican senators are urging the house members to agree to something in this line.

The probabilities now are that a substitute silver provision will be reported.

WHITE HOUSE VISITORS.

WASHINGTON, June 7.—There was an unusually small number of callers at the white house today, even sightseers being scarce.

The president saw a number of senators and representatives, however, mostly on war appointment matters.

Senator Frye, of Maine, had a short conference and Representatives Speedy, of Connecticut; Brownlow, of Tennessee; Weymouth, of Massachusetts, and Wadsworth, of New York, also had brief interviews.

THE BILL IS SIGNED.

WASHINGTON, June 7.—The bill for the removal of all political disabilities arising from the civil war is now a law, President McKinley having formally approved it.

Representative Jenkins, of Wisconsin, is its author. The law declares that the "disabilities imposed by section 3, 14th amendment of the constitution heretofore incurred are hereby removed."

LOCAL LINES.

MARIA TERESA SUNK.

First-Class Spanish Cruiser Reported Destroyed at Santiago.

WENT DOWN UNDER FIRE OF AMERICAN GUNS

(Copyright, 1898, by the Associated Press.)

MARIA TERESA REPORTED SUNK.

CAPE HAYTIEN, Hayti, June 7.—9:05 A. M.—It is reported here that the first-class armored Spanish cruiser, Maria Teresa, was sunk yesterday by the fire of the American fleet.

ANOTHER STORY OF THE BOMBARDMENT.

NEW YORK, June 7.—A special from Cape Haytien, describing the bombardment of Santiago de Cuba on Monday, says that the forts about the harbor are now a mass of ruins.

The Morro is a shapeless pile of ruined masonry and dismantled guns, and the Estrella battery is utterly ruined. This result, the dispatch says, was the work of ten American ironclads, which passed back and forth from Port Cabrera on the west to Port Aguadores on the east of the harbor entrance, discharging their heavy guns as they steamed along, so that scarcely a yard of the coast escaped the deadly cannonading.

At Port Aguadores the fort recently constructed by Colonel Ordonez, the famous artillery expert, was blown to dust and Colonel Ordonez himself was badly wounded by the flying splinters and debris. Captain Sanchez and Lieutenant Yrizar, artillery officers, were also wounded.

Two infantry lieutenants Garcia and Perez, and twenty-one privates are reported fatally wounded. Later in the day the American ships moved closer toward the mouth of the harbor where the old cruiser Reina Mercedes had been discernment attempting to place explosives about the hull of the Merrimac to blow her to pieces and clear the channel.

A thirteen inch shell from the Oregon landed squarely abaft her pilot house and tore all her upper works to shreds.

Her "second commodore," five officers, and a marine were killed. A second lieutenant of the Reina Mercedes and sixteen of her seaman were very seriously wounded.

A perfect shower of shell and shot fell upon and around the old cruiser and she was so badly damaged that her crew, by order of Admiral Cervera, abandoned here and sought the shore for safety.

About noon, according to the Cape Haytien dispatch, a landing party of American marines near Daiquiri, was attacked by Spanish infantry and a squad of cavalry.

The insurgents were posted in the neighborhood, and with the aid the marines successfully took up a position holding it and later making it a base from which they operated. The Spanish force was defeated with heavy loss and driven back toward Santiago, leaving their wounded behind them.

The Americans are now entrenched near Daiquiri and are landing heavy guns, preparatory to movthem toward Santiago and laying siege to the city.

There is a panic in Santiago. The residents who can leave are fleeing to the country, joining the insurgents or doing anything to get away from the certain destruction that now awaits Cervera's fleet and the forces of Pando and Linares.

COMMANDER STURDY DIES ABOARD SHIP.

KEY WEST, June 7.—8:20 A. M. The United States collier Pompey, formerly the British steamer Harlech, arrived here today from Norfolk, Va., with her commander, Lieut. Com. E. W. Sturdy, dead on board, and Lieut. K. C. Norton in charge of the ship. Commander Sturdy was not feeling well when the Pompey sailed on Friday evening. He was taken sick off Cape Henry, soon afterwards became unconscious and died yesterday.

There was no physician on board. He was a native of Maine, fifty-one years of age, and has been in the service thirty-six years. The family of the deceased live at Annapolis.

The interment of the remains of Lieutenant Commander Sturdy will take place here today with naval honors.

A "SPANISH VICTORY" REPORTED BY BLANCO.

(Copyright, 1898, by the Associated Press.)

HAVANA, June 6.—10 P. M.—(Delayed in transmission.) — Details from Spanish sources received here today of the bombardment (Sunday) morning of the forts of Santiago de Cuba by the American fleet, say the warships of the United States fired fifteen hundred projectiles of all kinds. This fire, the Spaniards add, was answered by Morro Castle and the batteries at Socapa and Punta Gorda.

At noon, it is added, another bombardment began against Aguadores, east of Santiago de Cuba, the firing lasting one hour.

Both attacks, the Spaniards assert, were repulsed. Morro Castle is admitted to have been damaged as was the "exterior headquarters built during the time of peace at Cayo Smith," and, in addition the Spanish cruiser Reina Mercedes is admitted to have been "slightly damaged."

The Spanish commander at Santiago reports that the American fleet did not dismount one piece of artillery, and he says that nine of the American vessels "disappeared from sight before dark."

The Spanish army losses, according to the official reports, are one soldier killed and one chief, four officers and twenty-one soldiers wounded.

The Spanish navy losses are reported to be one chief and five sailors killed and one officer and twelve sailors wounded.

Finally the Spanish version of the affair says "the American losses are supposed to be considerable."

Captain-General Blanco has congratulated General Linares, the Spanish military commander at Santiago de Cuba, and those who took part in the fighting, saying he will call the attention of the Spanish government to the "heroisms exhibited by all the Spanish forces in such an unequal combat."

AUGUST HYLLESTED.

The Danish Musician, Gives a Piano Recital

Under the Auspices of the Westminster Seminary.

The New Kimball Hall Crowded With Their Invited Guests Last Night.

The music loving people who were fortunate in receiving invitations to the graduating exercises of the Westminster seminary had the opportunity of listening to one of the greatest piano virtuosos of the age last evening at Kimball hall.

The artist was the celebrated Danish pianist, August Hyllested, of Chicago, who is among the best of the world's great piano players. The program was such as is seldom given outside the great musical centers and amply proved Mr. Hyllested's musical versatility.

The piano used was a Kimball Concert Grand, and under the touch of the artist held the large audience enrapt by the volume, richness and clearness of its tone.

To say that the audience was pleased with the artist, the entertainment and the beautiful new hall of the W. W. Kimball company fails to express it.

The faculty of Westminster seminary are to be congratulated. The splendid success of the evening has given new emphasis to their courage and enterprise.

TO FULL STRENGTH.

Volunteer Regiments to be Recruited Anew.

Officers to Return to Place of Organization.

Each Regiment Must Have Over Thousand Men.

Troops at Chickamauga Park Being Vigorously Licked Into Condition for Campaigning.

CHICKAMAUGA National Military Park, Tenn., June 7.—The very warm weather, which has been the only drawback to the work of the park, is relieved today by a steady breeze and the men are getting through their drill work with much less trouble than usual.

Regiment and company drills, and in some regiments camp inspection, are the order of the day. The main work of the regimental commanders, outside of the regular routine, during the next few weeks will be the work of recruiting each company to its full strength of 106 men. The major of each battalion, accompanied by four men, will be sent out to do the recruiting.

Offices will be opened in the best places in all the states represented here and every effort will be made to get the work finished in a short time.

When the regiments are recruited to full strength the park army will number 75,000 men.

The First regiment, South Carolina infantry, under Colonel Thompson, arrived this afternoon. It was taken through to the park soon after arriving here.

Governor Bradley with a large party of prominent Kentuckians arrived this morning at 6 o'clock on a special train.

The party will remain in the park several days. All the light batteries of artillery at the park are now fully equipped and the infantry regiments will soon receive their equipment.

Three divisions hospitals are now complete and in operation.

These are for the second and third divisions of the first corps and the second division of the third corps.

Colonel Hartzuff, surgeon-in-chief states that he has sufficient medical supplies on hand to last some time.

The volunteers, however, he states, expect more and use more medicine than the regulars. A large consignment of surgical instruments is en route.

Major Nye, commissary of subsistences stated this morning that one-third of four and a half million rations last order had been received and that the balance was coming as fast as train loads could haul it. Captain W. K. Wright, assistant quartermaster, states that up to 6 o'clock last evening the volunteer army had been furnished by the quartermaster's department with 4,500 horses and 5,262 mules.

SILVER MILE-POST.

Mr. and Mrs. A. T. Lukens Give a Reception.

Notable Celebration of Their Twenty-fifth Wedding Anniversary—Many Guests Present.

Last evening, at their home, 336 West Berry street, Mr. and Mrs. Alfred T. Lukens celebrated their twenty-fifth wedding anniversary. The reception, which lasted from 8 until 12, was attended by a very large number of the friends of Mr. and Mrs. Lukins, and was one of the most conspicuous social events of recent months. The happy couple, who together have walked life's pathway until the silver milestone has been reached, were warmly congratulated upon the joy and prosperity that have attended their journey, and none wished them less than the doubling of the span.

The home was most tastefully adorned with flowers and festoons of smilax, the floral embellishments, though not elaborate, being managed with admirable effect. Mr. and Mrs. Lukens were assisted in receiving and directing the comfort and enjoyment of the guests by Mesdames H. H. Granger, C. B. Woodworth, F. J. Hayden and E. T. Williams. Miss Lida Woodworth was in charge of the following young misses, who assisted with the refreshments: Miss Bessie Colerick, Miss Julia Sawyer, Miss Eva Rossell, Miss Carrie Hughes, Miss Carlie Olds, Miss Esther Smith, Miss Helen Rotzo and Miss Jessie Campbell.

Coffee and sandwiches were served in one of the smaller rooms and punch and teas in the dining room. An orchestra of mandolin players added gayety to the occasion.

The following out-of-town guests were among those invited:

Messrs. and Mesdames A. D. Brandriff, Marion, Ill.; D. S. Alexander, Washington, D. C.; R. G. McNiece, Salt Lake City; Charles Goodwin, Chicago; H. N. Goodwin, New York; S. S. Morse, Indianapolis; Frank Blair, Chicago.

Messrs. Perry Lukens, New York; W. T. Jenison, Denver, Col.; Wm. Morris, Richmond, Va.

Mesdames Clara Chapman, New Haven, Conn.; Margie Rathbun Evans, Salem, Va.; E. Stanford, Kenton, Ohio.

Misses Augusta Brandriff, Washington, D. C.; Jessie Stanford, Kenton, Ohio.

INVASION TO BEGIN.

General Shafter's Army is Aboard Transports and Ready to Embark.

DESTINATION OF TROOPS FLEET UNKNOWN.

Chicago, June 7.—A Tampa dispatch from a reliable correspondent to the Chicago Daily News, dated June 7, says the work of loading troops, horses, guns, ammunition, stores, equipment and medical supplies for the first great invasion for the Spanish West Indies is almost completed and before many hours General Shafter's corps, the Fifth, is expected to sail away. The destination is known only to a few and may not be given out until the fleet and transports, with its convoy of war vessels, is well on its way to Cuba.

MUNICIPAL AFFAIRS.

Preparing an Ordinance to Compel Destruction of Weeds.

City Attorney Shambaugh at Work on Ordinance—Water Works Inspector Abolished—Notes.

There has been much complaint because of the failure of many citizens to kill weeds growing in their yards. The authorities have finally determined to take a hand in the matter and City Attorney Shambaugh is now at work preparing an ordinance to compel the destruction of all weeds. It is probable the ordinance will permit the city authorities to cut the weeds and charge the expense to the property, and if necessary place the expense on the tax duplicate.

OFFICE ABOLISHED.

The waterworks trustees held a regular meeting last evening and transacted considerable business. Before adjournment a motion to abolish the office of waterworks inspector was adopted, Trustees Hartnett and Tagtmeyer voting for the following resolution:

"Be it resolved, That the board of waterworks trustees on and after the 16th day of June, 1898, discontinue the employment of Michael T. Singleton, or anyone in his stead, as overseer or inspector over and along the lines of said works, and that the clerk is hereby authorized to notify the said Michael T. Singleton of the action of the board."

The board appointed George Koogel engineer at the Ross street station. During the summer months it is necessary to keep the pumps at work during all hours of the day and night and the employment of an additional engineer is therefore necessary.

BOARD OF WORKS.

Fort Wayne is to have one mile more of asphalt streets. The board of works, at its meeting yesterday afternoon, adopted resolutions for pavements on Fairfield avenue from Wayne to Jefferson, on High street from Wells to St. Mary's avenue, on Cass street from Wells to Sixth street. The owners of property will be granted a hearing June 23 and bids will be received on the work July 7. A petition has also been filed with the board asking that Union street, from Main to Jefferson, be paved with asphalt.

The grading of East Creighton avenue is complete and the contractor is at work on Suttenfield street.

NOTES.

The council committee of the whole will meet tomorrow (Wednesday) to discuss the proposed annexation of property south of the city.

The two new LaFrance engines have arrived in the city and this afternoon are being tested at Delta lake in Lakeside.

The asphalt block for West Columbia street has arrived and has been distributed along the street for immediate use.

The council committee on rules, regulations and ordinances will meet at the city clerk's office Thursday evening.

The deceased was the daughter of Mr. and Mrs. John Muldoon of the city, and the remains arrived in the city at 3:30 o'clock this morning, and were taken to the residence of Mr. Lewis Voorle, at 18 West Fifth street. The funeral will occur Wednesday afternoon and the interment will be made in Parker's cemetery. Services at the M. E. church in St. Joe township.

A HORSE THIEF.

Sheriff Melching Finds the Owner of the Sorrel Colt.

The Animal Was Stolen From H. T. Probeck, a Miami County Farmer—Hipshire Will be Prosecuted.

Just as Sheriff Melching expected Lafah Hipshire is a horse thief and the valuable sorrel colt he tried to sell at New Haven was stolen. This morning Sheriff Melching received a telephone message from the Grant county sheriff making queries about the animal, which he said belonged to H. T. Probeck, a Miami county farmer. The farmer was in the Grant county sheriff's office this morning making queries for his missing colt, when the mail carrier called with the mail and left one of the postal cards which Sheriff Melching had sent out describing the animal found in Hipshire's possession. The description was that of Mr. Probeck's missing colt, except that a wart on the animal's nose was not mentioned. Sheriff Melching notified the Grant county officer that the colt was undoubtedly Mr. Probeck's and he will be here tonight after the animal. The sheriff of Miami county was notified and he will be here to take Hipshire back to Miami county for trial.

The animal was in pasture and was stolen last Wednesday evening and ridden to New Haven, a distance of more than sixty miles. The saddle and bridle were undoubtedly also stolen, although not the property of Mr. Probeck. Sheriff Melching deserves credit for his work in locating the owner of the animal and bringing another horse thief to justice.

MISMATED COUPLES.

Judge Roby, who is presiding in the superior court, this morning granted Sadie Kayser a divorce from William Kayser on the grounds of failure to provide. She was given the custody of one child.

In the circuit court Judge O'Rourke granted Bethana Waltemath a divorce from William F. C. Waltemath. She was given the custody of the three minor children, and the husband was ordered to pay $30 a month for their support until the court made further orders.

NOTES.

Gussie Black makes application in the superior court for a divorce from Joseph Black, alleging desertion. J. H. Aiken penned the complaint.

Through her attorney, E. V. Sarrick, Ida Johnson asks for a divorce from Ezra Johnson.

This afternoon Justices France and Tanney and Drs. C. B. Stemen and A. J. Kesler are holding an inquest of sanity on Ashland Smith.

Jolly Pathfinders in "A Devil's Gold Mine."

AMERICAN war news is becoming very much Spanish.

THE country may now divide its kinship between Dewey and Hobson. For a time Dewey owned it all.

SPAIN has again protested to the powers that the United States has violated international law. Spain should hold her protests back for the more violent mistreatment that is in store for her.

FROM Washington comes word that as soon as Santiago is reduced and San Juan taken, peace overtures are expected from Spain. Certainly, there will be peace when Spain is licked. Get at it.

THE best the funny fellows can do with the name of the Merrimac hero is to note that his sublime daring was a clear case of "Hobson's choice." They could Dewey a little better with the Manila winner.

THE first "run" on banking institutions in London was in 1667. Many Lombard street goldsmiths and bankers had lent out the money entrusted to them, and being called upon for payment, were unable to meet the demand. A crowd of creditors and others assembled and a riot followed, in which four bankers were hanged at their own doors before order could be restored and the angry creditors persuaded that they were not being swindled.

WHEN the Zoar community in Ohio disbanded there were enough debts against the corporation to use up all the money in the treasury. This left as the sole assets of the members 7,500 acres of land, without anything to improve or work it. This contingency was not foreseen, and those who were most active in advocating dissolution now regret their action in substituting for the peace and plenty which the community enjoyed for so many years the worry and embarrassment which the Zoarites now have to face.

DURING this war with Spain the censorship of the press is recognized as a necessity, and if war news is rationally censorized there will be complaint from no quarter. But the manner in which the Washington end of the business is conducted makes a farce of the matter. At Tampa and Key West it is impossible to telegraph news that should be suppressed, but the censor's labor is lost because in Washington correspondents of certain powerful metropolitan newspapers are able to obtain war plans, naval movements and the like as regularly as ever. Censorship should be established over the Washington bureau chiefs if there is to be any good and served by the interdiction of news.

BY THE accidental misplacement of a bit of copy THE SENTINEL in its brief resume of the personnel of the democratic county ticket Monday neglected to mention Sheriff Albert E. Melching, who was renominated by the convention Saturday. The occurrence was distressing to THE SENTINEL, for it did a seeming injustice to a popular man and as good a sheriff as Allen county has ever had. Mr. Melching has been an active, alert and vigilant officer and his administration of the affairs of the sheriff's office has been so conspicuously satisfactory that even his political opponents have been compelled to acknowledge it by refraining from criticism. His renomination came to him without effort upon his own part and was the free-will tribute of his party to the eminent merit of his official career. Sheriff Melching has inaugurated many reforms in various details of the conduct of the office which he holds, with the result that the public is better and more economically served in that capacity than has been the case for many years. He will be re-elected and it is not guessing to predict that his majority will place him among the leaders of the ticket.

NO ONE will, for no one can, discount the splendor of the daring exhibited by Lieutenant Hobson, who commanded the Merrimac on that desperate cruise up the narrow neck of Santiago bay, running the terrible gauntlet of shore batteries and defying the fields of deadly mines beneath. In accounting for his bravery Lieutenant Hobson's ancestry has been dug up and it is found that his great grandfather fought with Washington, his grandfather with Jackson and his father with Lee. He comes of fighting stock, it is said. So he does. But how about Montague, Charette, Murphy, Delgnan, Phillips, Kelly and Clausen, the seven brave fellows who volunteered to go with Hobson and did go with him? Did they not come of "fighting stock," too? But who was the "stock?" No one has yet exhumed the ancestry of these men to account for their part in the Santiago fest. Somewhere in this land or in lands across the sea there are humble folk whose eyes will fill, whose voices tremble, whose bosoms thrill, when they read of Kelly and Murphy and Clausen and the others of the seven who sailed intrepidly into the mouth of that hell at Santiago, for those men have kinsfolk somewhere on the earth.

TWO THOUSAND STRONG.

Immense Excursion From Jackson, Mich. Coming to Robison Park.

Since the opening of Robison park there have been some large excursion parties here from neighboring cities and towns, but the biggest of them will sink into insignificance in comparison with the one which is to come down from Jackson, Mich., the latter part of June or early in July. Yesterday six of Jackson's leading business men, who represent the Retail Grocers' association of that city, were here to consult the park management concerning the excursion. They were escorted over the grounds by Amusement Manager Heilbronner, who told them what they could expect from the park people in the way of amusements and pointed out the very small per capita cost of a days' pleasure at that resort. The gentlemen expressed the belief that Robison park was the place they were seeking and they left for home, determined to bring the excursion party here. One of the party, in conversation with a citizen, stated that it was their aim to seek an excursion point where there were all the facilities for handling an immense crowd speedily and safely, and he believed that Robison park possessed these facilities. The Retail Grocers' association, of Jackson, bears the same relation to that city as business men's clubs and commercial clubs or boards of trade do to other cities. They have a membership of over 600, and their annual excursion is always considered the event of the season. Last year they went to Toledo in three special trains, and carried over 2,100 passengers.

Jackson is a city much on the same lines as Fort Wayne, and there is no doubt but that the visit of a large delegation from our northern neighbor would result in the establishment of more cordial relations, both in a business and social way. It is sincerely hoped that the Jacksonians will decide to come here and learn how clever a host Fort Wayne can be.

CITY OWNERSHIP

Of Electric Lighting Discussed by Dr. K. K. Wheelock.

Some Facts and Figures Intended to Show the Municipal Control Will Benefit the People.

EDITOR OF THE SENTINEL:

There is a growing conviction in the minds of the people that the highest attainment of success in all departments of public utilities is through the control and ownership of such utilities by the people. When such utilities can be had by the people at the net cost of the product, why pay twice or three times such cost to private corporations? There can be no argument when we once admit the tenability of municipal ownership. The courts uphold the right of the city to engage in business enterprises which are of public character, and maintain the right of the people to distribute natural products for the benefit of the people, and go further and admit the manufacture of products when the object is primarily for public benefit rather than for financial gain. The storing of electricity is hardly to be regarded in the nature of manufacture. Its machinery is simple and its management is not complex. The industry does not convert raw materials into industrial products any more than our water works manufacture water. Water is simply stored and distributed under practically the same methods as are used to distribute the electric current. The product of the dynamo is not sold in competition with other products and does not figure in barter and trade. There are no complex mercantile dealings with jobbers or producers of materials which might affect the cost of the finished product. No shipping to distant points and no clerks to drum trade. The product is stored and distributed for present use and each day's product is disposed of. In fact so entirely similar to the distribution of our water supply is electricity that the two plants may most advantageously be operated together and when they are so operated the cost of the electrical output is reduced to the minimum. There can be no question but that the same factors entering into any business may be variously used and that varying results will follow. But wherever good business methods have entered into the distribution and storing of electricity the cost has been practically the same in municipal plants and private concerns. The unit cost varies but little in England and America. The local conditions must always be borne in mind in estimating the cost of the output. In private concerns often the unit cost is made high by reason of excessive salaries to figureheads and presidents, who are of no use in the actual business of the concern. Then, again, burdens are charged against cost which are incidental to municipal companies. Often attorney's fees are necessary in cases where the rights of the people have been invaded and cases come into court. Legislatures at times must be bought in the interests of private enterprises. Again the plants are bonded for the full amount of their cost, while the stock is expected to pay 5 to 8 per cent. All these elements figure in the cost of a private plant, when they would not be considered in municipal ownership. As between different cities, the cost of fuel will be a figure in the cost of the output. One city may have coal at seventy-five cents a ton laid down at its furnace doors. Another city may have coal at its docks at $1.50 per ton. Labor cost will vary in different cities and thus we will note the variations in lamp cost in cities of nearly the same size. In Indiana the lamp cost varies so greatly that local conditions of cost cannot be regarded as the true cause of such difference. For instance Terre Haute pays $43.95 per lamp under the contract system, while Fort Wayne pays $126 under the rental system.

Terre Haute is near the Indiana coal fields and coal is had at $1.55 per ton. The Fort Wayne plant is run in part by water power so that the power cost would be about the same. Where can be the difference in the cost? Is the difference natural or artificial? Is patriotism higher or lower in Terre Haute as compared with Fort Wayne? Indianapolis pays $85.00 per lamp on the moonlight schedule under private contract, while Kendallville pays $60.00 under municipal management. New Albany, under the rental system, with the lights running all night and every night, pays $58.40, while Muncie, operating on moonlight and dark nights, pays $54.00 under the rental system. These figures are reliable, because they are furnished by the Fort Wayne Electric corporation.

Martinsville operates a municipal plant of sixty arc lamps of 2,000 candle power all night, except moonlight nights, at a cost of $35.00 per lamp.

It seems very pertinent to inquire why these variations? And when we know why the city of Fort Wayne chooses to permit her people to be robbed of $18,000 to $20,000 per annum in the matter of street lights it would seem most healthful for all concerned if our street lighting system would step out of politics and allow the business of lighting our streets to be done on business principles. We are in need of many improvements in the city which would be of lasting benefit to the people. But as long as we have to raise $20,000 more than we should raise and hand it over as a subsidy with which a corruption fund may be established to be used in municipal elections these public improvements must wait. A foot bridge should be built across the Maumee river at the foot of Harmar street so that there may be communication with Lakeside but our board of public works would raise its hands in pious supplication to Heaven, and swear by all the saints in the calendar that such extravagance could not be thought of, yet when it comes to handing the council a contract by the terms of which the people of the city are robbed of $20,000 per annum for electric lights, they feel anew the burning of the fires of patriotism in their souls, and they again consecrate their lives to their country and their God (Mammon). We need a curfew law in Fort Wayne to protect our children from the dangers of unbridled liberty on our streets. But this would mean an addition to our police force to properly carry out the provisions of the law. But we can not have such an ordinance; it would be expensive. Our children are cheap. The future of the state, based upon their virtue and morality, is of no concern, and the great I AM, the man who boasts "I can now make and unmake mayors," puts forth his fist and says: "Let there be light and there is light" at $120 per light. But we can't have any more policemen because there is no money and we can't raise the levy. Taxpayers, if you demand municipal lights you can lower your levy 10c on the $100 and own your own plant in ten years. Why do you longer stop on your rights? Are you, too, hypnotized by this brazen image masquerading as benefactor to your city? Yours, etc.,

Captured the Initial Game With the Hoosiers in Toledo.

Hughes Was Taken Out at the End of the Fifth With the Score 6 to 4—Other Games.

The Fort Waynes played their first game of the season in Toledo yesterday and lost. Hughes commenced the game for Fort Wayne, but at the end of the fifth inning, with the score 6 to 4 against the Hoosiers, he was taken out and "Bonny" Brodie was substituted. Only one more run was scored. Ed. O'Meara played second base in place of Pack Sharp. "Kid" Keenan was in the points for Toledo and pitched his usual effective game. Score:

INTERSTATE ALL SCHEDULE.

Aneut the stories going the rounds concerning the shaky condition of the Inter-State league, the Youngstown correspondent of the Cleveland Leader sends that paper the following:

"The reports published to the effect that the Inter-State league was in a shaky condition, and that New Castle and Springfield would go out of the business, are entirely without foundation. The league is in solid condition financially, and neither New Castle nor Springfield are on the market. Since Wheeling was dropped reports have emanated from that city to the effect that it had an option on a franchise in the Inter-State league.

"If it has any option it is at a figure that Wheeling can not reach. Irving Brodie, who has been in the box for three seasons with Youngstown, and now signed by Fort Wayne, will probably be offered steady employment as a machinist."

NOTES.

Griffin has accepted Fort Wayne's terms but wants advance money, which he will not get.

Brott, an outfielder from Waterloo, Iowa, has been signed by Manager Howard, of Mansfield.

Pack Sharp left Fort Wayne over the Wabash last evening and will report to Manager Vanderbeck in Detroit this afternoon.

Dayton News: "Lew Knau, who played short for Indianapolis last year, has joined the Daytons. He may succeed Heine. The latter has been doing good work. His great disadvantage is his arm. But he's 'warm enough' for any club in the Inter-State."

LOCAL LINES.

Miss Alice Parmele is visiting in Chicago.

COULD NOT SLEEP.

Mrs. Pinkham Relieved Her of All Her Troubles.

MRS. MAUDE RADCLIFF, 176 Second St., Grand Rapids, Mich., had ovarian trouble with its attendant aches and pains, now she is well. Here are her own words:

"Your Vegetable Compound has made me feel like a new person. Before I began taking it I was all run down, felt tired and sleepy most of the time, had pains in my back and side, and such terrible headaches all the time, and could not sleep well nights. I also had ovarian trouble. Through the advice of a friend I began the use of Lydia E. Pinkham's Vegetable Compound, and since taking it all troubles have gone. My monthly sickness used to be so painful, but have not had the slightest pain since taking your medicine. I cannot praise your Vegetable Compound too much. My husband and friends see such a change in me. I look so much better and have some color in my face."

Mrs. Pinkham invites women who are ill to write to her at Lynn, Mass., for advice, which is freely offered.

The Humane society held a meeting at the office of Bittinger & Clapham yesterday afternoon, and passed a resolution seconding the work of the W. C. T. U. in favor of a curfew ordinance for Fort Wayne, and declaring that the society would concur with the W. C. T. U. in this work.

Many people burn the candle of life at both ends. Some men who never go into vicious dissipation use up their energies just as much by overwork or late hours; and nearly all women are compelled by circumstances to use up their vital powers beyond all reason: It may be in housework; or social demands; or the bearing and rearing of children. At any rate the candle of life is too rapidly consumed.

Some people need to have their natural vigor artificially restored in the same proportion that it is used up. They need the fortifying help of Dr. Pierce's Golden Medical Discovery. It is a powerful alterative and invigorant of the digestive functions and liver; it cleanses the blood, and makes fresh blood and healthy flesh. Nervous, debilitated women should take it in conjunction with Dr. Pierce's Favorite Prescription which is specially designed for female weakness and nervous troubles.

Mrs. Sallie Kauffman of Virgil City, Cedar Co., Mo., writes: "I had suffered from displacement of internal organs and other troubles for one year. Had a bearing down sensation and very much pain. Could not sit down scarcely any hours; could be on my feet only a few minutes until he was six weeks old, then I commenced taking Dr. Pierce's 'Golden Medical Discovery' and 'Favorite Prescription.' I took seven bottles in all. After taking the seventh I felt much better. I think I am entirely cured of all my troubles. I can do all my work and am comfortable. I am in much better health now than I have been in four years; am fleshy and gaining strength very fast."

By writing to Dr. Pierce who is chief-consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., careful professional advice will be arranged free of cost and specially adapted to the individual case. Dr. Pierce's great book, Medical Advisor will be sent free for 21 cents; the cost of postage.

The Pennsylvania Shopmen Secure a Band and Orchestra for Their Annual Picnic—Local Gossip.

Fire was discovered on the roof of the old Wabash round house at 9:20 o'clock this morning. Five minutes later the shopmen's fire department had a hose stretched and were throwing water upon the building, extinguishing the flames before any serious damage had occurred. The fire is supposed to have originated from a spark from a stove, in which one of the employes had kindled a fire to heat some bolts. No alarm was sent to the city fire department.

General and Local Gossip.

Walter Adams, machinist at the Bass works, is sick.

O. Thompson, of the east car shop, is sick and off duty.

Pittsburg Engineer James J. Hayes is sick and off duty.

Jacob Gushing, checkman at the Lake Shore warehouse, is sick and off duty.

Nickel Plate Engineer C. Bronckmeier has gone to Cleveland to spend a ten days' vacation.

Engineer J. A. Swartz and Fireman Wm. Hurlburt, of the Nickel Plate, are taking a few days' lay off.

Charles Hilker has returned to his work in the Pittsburg shops. A week ago he had the misfortune to have an arm hurt.

Fred Deahl has resumed charge of his local run on the Nickel Plate and Conductor Pierce has returned to a through freight run.

Thomas Pritchard, machinist at the Bass works who lost a finger a short time ago, resumed his work at the shop this morning.

Brakeman Romberger, who was sick, and Brakeman M. Deatrick, who was resting, yesterday reported at the Nickel Plate for work.

T. Elliott, car repairer at the Nickel Plate, has recovered from his recent illness and is working again, after an absence of a week.

The Louisville and Nashville road will restore the wages of its employes July 1 to the standard which prevailed during the "flush" time of 1892.

John Ryan, the coppersmith at the Pittsburg shops, is off duty today attending the wedding of his aunt, mention of which is made elsewhere.

R. R. Cable was president of the Chicago and Rock Island for twenty-one years. He resigned last week to become chairman of the executive committee.

Nickel Plate Conductor John Hilsinger, who had a foot crushed under a car wheel two or three months ago, has recovered from the injury and is again at work.

Mrs. Ford, Maine, wife of the Lake Erie and Western foreman, has gone to Geneva, Ind., to visit a week or two. She will be joined there in a few days by her husband.

Charles W. Johnson, of the Pittsburg shops, is entertaining Mrs. Peter Geisman and daughter, of Van Wert, Ohio. Mr. Johnson resides at 2 Brookside street.

Mr. Hare, foreman of the blacksmith department of the railway shops at Grand Rapids, was in the city today, the guest of the local Pennsylvania shop officials.

Conductor Michael O'Meara and his crew, of the Lake Erie and Western, were called to New Castle yesterday to testify in a case wherein the company is the defendant.

The Big Four shopmen at Bellefontaine, Ohio, are preparing for a flag raising, to take place June 20. A big banquet free to all spectators, will be a part of the program.

Forty miles of steel rail, weighing ninety pounds to the yard, was distributed last week on the Pittsburg and Lake Erie, and twenty-three miles more will be distributed this week.

R. Seymour, the Nickel Plate fireman, who had two toes mashed two weeks ago by a chunk of coal falling upon them, has recovered and yesterday resumed his duties on the road.

Nickel Plate engine 62, just out of the Stony Island shops, has been assigned to through freight service on the third district. Engineer Louis Balzer and Fireman H. Hale are the crew.

After a few days' recreation, Yard Conductor C. M. Taylor, of the Lake Shore, is on duty again. George Ward, a switchman in the same yards, is now taking a short rest from his labors.

A. S. Johnston, formerly train dispatcher on the Findlay, Fort Wayne and Western, and his wife have returned from Cincinnati. They are now contemplating a visit to Paris, making the journey there on bicycles.

George U. Barker, timekeeper at the Bass works, has gone to Ohio to spend a week or two on the farm of his aunt. Mr. Barker has been in poor health for several months and he thinks the rest and change of scene will be beneficial.

Machinist Andy Dawson, of the Pittsburg shops, who left here a month ago for Washington, is supposed to have been successful in securing a position in the government navy yards. A letter dated a few days ago stated that he was expecting to be summoned to duty at any time.

The Electric corporation today sent six motors, three of them twenty horse power each, to San Bernardino, Cal.

George H. Hoover, for thirty-four years general live stock agent of the New York Central, has resigned and is succeeded by J. H. Parke, formerly joint agent of the Central Traffic association at Buffalo.

C. W. Moore, who for a few weeks was assistant clerk in the storeroom of the paint department of the Pittsburg shops, has returned to his former position in the east car shops and L. W. Cook has taken the place in the storeroom.

The Illinois Central is arranging its finances to get a good line into St. Louis. In addition to bonds previously announced, the company has applied for the listing on the New York stock exchange of $5,221,000, St. Louis division and terminal 3½ per cent. first mortgage gold bonds.

Lloyd Ring, the young man who was injured by jumping from a Grand Rapids train at the Baltimore and Ohio crossing at Avilla, a few days ago, is not seriously injured. He was to have taken a position in the Indiana Machine works this morning, but was not able to do so on account of the accident.

Anton Fisher, sr., is lying ill at his home on Hoagland avenue. He is very old, being eighty-six, and the family are fearful lest he may not recover. Mr. Fisher was for many years employed in the cabinet department of the Pittsburg shops, but retired on account of old age. Anthony Fisher, the well known blacksmith in the Pittsburg shops, is a son of the sick man.

The railroads of New England are profiting by the war in one direction, the increase of all-rail transportation of coal. At present many of the cities and towns on the line of the New York, New Haven and Hartford and the New England roads are receiving their supplies by rail. Hitherto the bulk of this tonnage has been received at some coast point in barges or schooners and then transshipped to destination by rail.

Superintendent Starr, of the eastern division of the Pittsburg, Fort Wayne and Chicago road, has issued an order forbidding bicycle riding about the company's property. At Alliance the wheelmen got in the habit of riding between the tracks and one day last week one of them, a young man living in the city, was struck and killed by a train. The accident led Mr. Starr to issue the order forbidding any further riding on the tracks.

The committee on music for the shopmen's picnic at Rome City on June 16, has selected Wayne Tent band for that occasion. The committee also engaged the Jamison orchestra to furnish music at the dance hall. Other details for the event are now under way, and the coming excursion is going to be one of the best the employes ever enjoyed. A train of 75 coaches has been hired for those who are not employes of the company, and no doubt many tickets will be sold.

Among the many expenses borne by railroad companies the ice bill figures quite prominently. For instance, on the Baltimore and Ohio it is expected it will take over 80,000 tons of ice this year to meet the requirements of the service. The greater portion is used in connection with shipment of perishable goods; the balance in the passenger train service. A great deal of this ice is put up by the company in its own ice-houses, but as the past winter has been so warm a very large proportion will have to be purchased.

Today Pittsburg engine 273, of the class X pattern, is being put through a severe test in the way of hauling a big load at a high rate of speed. She left this city with 1,016 tons, a much heavier load than is usual for engines of her class. The X has six large drive wheels. Thirty of forty of these engines were built in the Fort Wayne shops five or six years ago for service in hauling heavy passenger and freight trains over the mountains, and right well did they perform that duty. But the company now has larger engines for that purpose and the X is being used in the west, where the country is level and the grades not so great.

Winton Beck, of Markle, was struck in the eye with a piece of steel a day or two ago, while trying to repair his bicycle. He was brought to Fort Wayne and taken to St. Joe hospital, where he is being treated by Dr. K. K. Wheelock. It is believed he will lose the sight of the eye.

BARNETT THANKS

Allen County Democracy for the Honor Conferred on Him.

Dr. W. F. Schrader Received a Telegram This Morning—The Doctor Beat Homan Like an Alligator.

Dr. W. F. Schrader this morning received a telegram from Dr. W. W. Barnett, which was in reply to a telegram announcing the doctor's nomination to the candidacy for coroner upon the democratic ticket. The message reads: "Greetings and thanks to the democracy of Allen county. Everybody well." Dr. Barnett is at Port Pampa, which is nine miles down the coast from the city of Tampa and is reached only by boat. This accounts for the delay in the receipt of the telegram.

Walter, the son of Dr. Barnett, this morning received by express from his father, a young alligator about eighteen inches long. The reptile is quite active, and created some commotion in the Barnett home when he was released from the box which had been his prison for several days. He was in a belligerent mood and not in the least particular who he tackled.

NEARLY DROWNED.

John Lerch Saved by the Quick Action of Companions.

Was Pulled Him From the St. Mary's After He Had Filled Up With Water and Gone Down.

John Lerch, aged 10, who lives at the corner of Pontiac and Fulton streets, had a narrow escape from drowning yesterday. He, with a number of other boys, went swimming in the St. Mary's river, near Esmond's mill. Lerch got into the water too far and sank, filling up with water. His companions dived down and got hold of him and then pulled the half-drowned boy to the bank, where they worked with him until they had brought him back to life. He was then taken to the county asylum, where he stayed until completely recovered from his almost fatal swim. Lerch is out today, but will not soon forget his narrow escape from death.

John Colchin, of Decatur, and Miss Mary May, of this city, were married at the St. Patrick's Catholic church this morning, at 9 o'clock. This evening the bride and groom will be tendered a reception at the home of Mrs. Ryan, 83 Hoagland avenue, who is a sister of the bride, and at 12 o'clock tonight Mr. and Mrs. Colchin will leave for Decatur, where they will reside.

I. L. Barkley and M. S. Willson have purchased the meat market formerly owned by Rochelle, on Broadway.

Card of Thanks.

We desire in this manner to express our thanks to friends and neighbors for their sympathy and kindness during our late bereavement.

DENTISTS

Painless Extracting by our own Safe Method.

A Cure for Heartburn.

The burning sensation in the stomach, the pains and suffering which I experienced for five long years, brought on by continued constipation and biliousness, are almost indescribable. I tried every known remedy without effect. Finally I tried Ramon's Liver Pills and Tonic Pellets, following the directions carefully. After taking a few doses I began to improve. I have not used more than three boxes and feel as well as I ever felt. My restoration to perfect health I attribute solely to the use of Ramon's Liver Pills and Tonic Pellets, and I only wish I could persuade others to do so as I did and be cured—Logan M. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing the work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.
